

Technical drawing of a 'Portillon type salon' (salon type gate). The drawing shows a side elevation of the gate structure. It features a main frame with vertical and horizontal supports. A window is integrated into the upper section. The gate is divided into two main parts: a lower section with a grid pattern and an upper section with a solid frame. The drawing includes labels for the 'Portillon type salon' and the 'Callebotis malle 30x30' (malle 30x30 gate).
