## **ARTICLE 2: GENERAL CHARACTERISTICS OF THE PROPOSED CONTRACT**

### **Form of the contract**

The contract constitutes public procurement composed of a single item subject to fixed pricing. It is entered into with a single operator.

### **Estimated amount of the need**

The amount of the contract depends on the prices offered by the selected candidate.

### **Term of the contract**

### **Allotment**

## **ARTICLE 3: CANDIDATE PARTICIPATION CONDITIONS**

### **Candidate presentation conditions**

A single entity may not represent more than one candidate for any given tender (Article R. 2142-4 of the French Public Procurement Code). In the context of this tender, however, the contracting authority authorises the candidate to present multiple offers when acting at the same time as:

- an individual candidate and member of one or more consortia of economic operators;
- a member of multiple consortia of economic operators.

In the event of an application being made by a consortium of economic operators, each member of the consortium must provide all the documents and information certifying their legal, professional, technical and financial capacity. The consortium's capacities will be assessed on an overall basis.

### **Grounds and conditions of exclusion**

Notably under:

- The French Law no. 2016-1691 of 9 December 2016 on transparency, anti-corruption and modernisation of the economy, the so-called "Sapin 2" law;
- Chapter II of the French Monetary and Financial Code setting out provisions for the freezing of assets and the prohibition of making funds available (notably Article L. 562-4 and Article L. 562-5);
- Relevant requirements emanating from accreditation for managing delegated EU funds (Pillar 7 relating to exclusion from accessing financing);

Candidates or their representative in any of the situations set out in Articles L.2141-1 to L.2141-10 of the French Public Procurement Code, or which are on any official exclusion list, shall be excluded from the procedure, whether their situation is established by means of their own declarations or through the application of vigilance measures by the contracting authority.

However, where the exclusion decision is at the discretion of the contracting authority, it shall invite the candidate(s) liable to exclusion to present their observations in order to establish, via all means and within a

reasonable period not exceeding 10 days, that the measures required to rectify the failings laying behind exclusion have been taken and, as applicable, that their participation in the tender will not undermine equality of treatment among the bidders.

Where an operator finds itself to be in a position of exclusion during the procedure, it shall notify the contracting authority without delay, which shall apply exclusion on these grounds.

### **Minimum prerequisites in terms of economic, technical and professional capacity**

The contracting authority does not impose minimum capacity levels on candidates. Each consortium member must provide all the documents required under these Rules. In order to demonstrate its professional, technical and financial capacity, the candidate may ask for due consideration to be given to the professional, technical and financial capacity of one or more economic operators. In such cases, it must demonstrate the capacities of the other economic operator(s) from which it benefits for contract implementation.

In the case of a temporary consortium, the aforementioned participation conditions will be assessed on an overall basis; the application file must include authorisation of the lead company from its co-contractors, which may be issued via form DC1.

### **Specific requirements for consortia of economic operators**

#### ***Grounds for the exclusion of consortia***

Where the grounds for exclusion from the tender procedure concern one of the consortium members, the contracting authority shall demand its replacement by an entity not subject to the grounds for exclusion, to take place within 10 days of the lead company receiving said demand. Failing this, the consortium shall be excluded from the procedure;

#### ***Form of the consortium***

The consortium shall be jointly liable. The lead company is liable for execution of the contract by each of the consortium members with regard to their contractual obligations vis-à-vis Expertise France.

### **Subcontracting**

#### ***Grounds for exclusion in the case of subcontracting***

Entities subject to grounds for exclusion cannot be accepted as subcontractors.

Where the subcontractor subject to grounds for exclusion is presented at the application phase, the contracting authority shall demand its replacement by an entity not subject to the grounds for exclusion, to take place within 10 days of the candidate receiving said demand. Failing this, the candidate shall be excluded from the procedure.

#### ***Presentation of a subcontractor***

Subcontractors are to be presented using form DC 4 (Subcontracting Declaration)<sup>1</sup> duly completed by the subcontractor and the candidate, incorporating a statement of the subcontractor's professional, technical and financial capacity, in addition to a sworn declaration that the subcontractor is not subject to any prohibition on participating in public procurement.

#### ***Bids submitted in paper format***

In order to access the tender consultation space or to submit their bid, bidders must connect to the French government procurement platform at:

<https://www.marches-publics.gouv.fr>

Electronic submission is mandatory. Any submission via other means will be rejected.

The bid submission procedure is detailed on the website [www.marches-publics.gouv.fr](http://www.marches-publics.gouv.fr).

On this site, bidders will notably find a user guide available for download which specifies the platform's conditions of use, notably the technical prerequisites and electronic certificates.

Should they so wish, bidders may make contact by phone on 01 76 64 74 07 on all business days between 9am and 7pm in order to obtain technical assistance with how to complete all the necessary tasks.

In the event of allotment, all lots must be covered by an electronic submission. However, it is possible to make a single electronic submission for multiple lots provided that the lots covered by a bid can be identified without ambiguity.

The costs of accessing the network and of electronic signature shall be borne by the candidate.

Bidders are invited to test the configuration of their work device and to perform a test tender to ensure that their technical environment is functioning as required.

Bidders' attention is drawn to the fact that they must at least have internet browser software. It is not mandatory to have an electronic signature system.

In order to make an offer, bidders must forward files in the following computer formats: PDF, RTF, ZIP, suite Microsoft Office, LibreOffice or Open Office. Any computer file in a different format will be declared null and void.

### **NOTE:**

All bid files must be free of computer viruses and must have been previously treated to this end by the bidder, using the latest version of an antivirus software. The same applies to all other files exchanged during this public procurement procedure.

The contracting authority may place any file containing a virus in a security archive. It will therefore be deemed never to have been received.

NB: Bidders' attention is drawn to the time required to deliver large volume electronic files. The average downloading time may vary according to various parameters, such as the technical capacity of the device, the type of internet connection, traffic on the network, etc.

To the extent that the date and time of completed upload constitutes the legal reference for submission of electronic bids, bidders are invited to allow sufficient time for all electronic submissions.

Even though its bid for this public procurement procedure will have been submitted electronically, the bidder undertakes, notably if its bid has been accepted, to provide contractually valid paper documents. In this regard, it also undertakes that the natural person providing the electronic signature also provides their handwritten signature without making any modifications to the documents, to be forwarded to the contracting authority in this format. Lastly, the bidder undertakes to accept notification in paper format, in accordance with standard practices.
