- partially or completely on any medium, current or future, including paper, optical, digital, magnetic or any other computer, electronic or telecommunication medium.

The Assignment is carried out as and when reports, works, studies and documents are produced by the Service Provider under the Service.

The Service Provider also acknowledges that the Contracting Authority has the right to transfer to any third party its right of use of the reports, works, studies and documents carried out by the Service Provider under the Contract.

13.2.2 Guarantees of the Assignment

For the duration of the Assignment, the Holder (i) undertakes not to distribute the Service in any medium whatsoever without the agreement of the Contracting Authority and (ii) guarantees the peaceful enjoyment of the ownership of the rights thus transferred to the Contracting Authority against all disturbances, claims and evictions of any kind. It guarantees in particular that it has regularly acquired all the rights, including intellectual property rights, necessary for the Transfer.

Consequently, the Contractor guarantees the Contracting Authority against any action, claim, claim or opposition by any person invoking a right of intellectual property in particular or an act of competition and/ or parasitic to which the Assignment would affect.

The Holder warrants that the Service does not contain anything that could constitute a violation of the laws and regulations in force, in particular with regard to defamation and insult, privacy and image rights, infringement of good morals, to counterfeiting or plagiarism.

13.2.3 Remuneration of the Assignment

The price of the Assignment is definitively included in the remuneration of the Contract. The Holder acknowledges that it is aware of this and will not be able to claim any additional amount under the Assignment.

14. Safety Plan Review

At the time of notification of the contract, if the area(s) in which the Service is implemented is/are classified as an orange or red zone by the French Ministry for Europe and Foreign Affairs, the Contractor undertakes to transmit its safety plan to a specialized external body designated and financed by the Contracting Authority. This transmission takes place as soon as the contract is notified and before any movement or intervention in this/these area(s).

The specialized external body will transmit its recommendations to the sole Holder, who will decide on the follow-up to be given under his sole responsibility.

The specialised external body shall send to the contracting authority a certificate drawn up by it certifying that the documentation transmitted has been reviewed. No travel by the Contractor may be carried out before receipt of this attestation by the Contracting Authority.

15. Additional clauses

15.1 Reorganization or judicial liquidation

The following provisions shall apply in the event of judicial reorganization or judicial liquidation.

The judgment establishing the judicial reorganisation or liquidation shall be notified immediately to the contracting authority by the contract holder. The same applies to any judgment or decision that may have an effect on the performance of the contract.

The contracting authority shall send a notice to the administrator or liquidator asking him whether he intends to require performance of the contract. In the case of judicial reorganization, this formal notice is addressed to the holder in the case of a simplified procedure without an administrator if, pursuant to article L627-2 of the Commercial Code, the judge has expressly authorized them to exercise the option opened by article L622-13 of the Commercial Code.

In the event of a negative response or failure to reply within one month from the dispatch of the notice, the contract shall be terminated. This one-month period may be extended or shortened if, before the expiry of that period, the commissioner judge has granted the administrator or liquidator an extension or has given him a shorter period.

Termination shall take effect on the date of the decision by the administrator, liquidator or holder to waive further performance of the contract, or on expiry of the above one-month period. It does not entitle the holder to any compensation.

15.2 Declaration and obligations of the Data Controller

15.2.1 Statement by the Holder

The Service Provider shall be responsible for the necessary authorizations under the Contract and the insurance relating to the Service. The Service Provider declares that it will subscribe and maintain, and ensure that its Staff has insurance covering all risks related to the performance of the Service. The Service Provider shall provide AFD, upon request, with the corresponding insurance certificate or certificates.

The Service Provider declares:

- that he has obtained all the necessary authorisations from the competent authorities to carry out his activity.
- that it has all the necessary authorisations for the validity of the Contract and the performance of the obligations arising therefrom;
- that the Staff are employed by him in accordance with the applicable labour regulations.

In accordance with articles L 8222-1 and D 8222-5 of the French Labour Code, the Service Provider must provide the following documents at the time of signing the Contract, then regularly depending on the validity period of each document:

- The valid document certifying the actual registration of the structure (extract K-bis or equivalent)
- A tax certificate issued by the competent authorities certifying that the Holder is up to date with its tax obligations;
- A certificate issued by the competent authorities certifying that the Holder is up to date with its social obligations;
- A valid certificate of civil and/or professional liability insurance.

- The list of names of foreign workers outside the EC or posted, employed by the structure or otherwise an affidavit of non-employment of foreign workers outside the EC.

These documents must be provided and kept up to date in the PROVIGIS tool – a tool for collecting certificates that has been developed by the contracting authority.

15.2.2 Duty of confidentiality

The Holder, acting both for himself and on behalf of the Staff for whom he is responsible, undertakes, during the term of the Contract and for a period of five (5) years following the end of the Contract, that the Confidential Information:

- be protected and kept strictly confidential, and treated with the same degree of care and protection as it accords to its own confidential information of equal importance;
- are transmitted internally only to Staff;
- not be used for any purpose other than that specified in the Agreement.

Notwithstanding the above paragraph, information covered by professional and banking secrecy shall be kept confidential until such confidentiality is lifted.

The Contractor therefore undertakes not to disclose, directly or indirectly, in part or in full, the Confidential Information without express prior written agreement of the Contracting Authority, to keep confidential any information or document obtained under the Contract and not to make any communication to third parties on the missions entrusted to it without prior, express and written authorization of the Contracting Authority.

At the end of the contract, the Holder undertakes to return the documents provided in full.

15.2.3 Powers of the Holder

The Contractor has no power to act in the name and on behalf of the Contracting Authority or to engage the latter, except for an express and special mandate granted by the Contracting Authority on a case-by-case basis. The Contracting Authority remains the sole judge of any decisions to be taken on the proposals that will be submitted to it by the Contractor at the end of the Service.

15.2.4 Integrity clause

The Holder declares and undertakes to:

- have not committed any act likely to influence the bidding process and in particular that no Agreement has taken place or will take place;
- that the negotiation, conclusion and execution of the Contract have not given, do not give and will not give rise to an Act of Corruption and/or an Act of Fraud.

15.2.5 Social and environmental responsibility

The contracting authority attaches great importance to compliance with provisions in favour of sustainable development, both in its social and environmental aspects.

15.2.6 Personal data

In the context of the Service, the Data Controller may be required to process personal data within the meaning of Regulation (EU) 2016/679 of the European Parliament and the Council of 27 April 2016, known as the General Data Protection Regulation ("GDPR") and the French law n°78-17 of 6

January 1978, as amended, known as the "Data Protection Act" (hereinafter "the Data"), on behalf of and under the responsibility of the Contracting Authority. Therefore, the Holder would act as a "subcontractor" of the Contracting Authority, within the meaning and under the conditions described in article 60 of the Data Protection Act and 28 of the GDPR.

Also, if applicable, the Holder undertakes to:

- not to use the Data for purposes other than those necessary to implement the Service and not to make any copies of the Data other than within the strict framework of the performance of the Contract,
- respect the principle of relevance and proportionality of personal data processed and, therefore, to collect/process only Data strictly necessary for the provision of the Services. In any case, the Contractor undertakes to act only on written and prior instructions from the Contracting Authority which may, spontaneously or at the request of the Contractor, specify in writing the categories of personal data that may be processed for the performance of the Service,
- not transfer the Data to states outside the European Economic Area, within the meaning of articles 44 and following of the GDPR, without prior written consent from the Contracting Authority.

Subcontracting

The Data Controller undertakes not to sub-contract all or part of the Services involving participation in the implementation of the processing of the Data to third parties, unless it has obtained the prior written consent of the Contracting Authority. If the Contracting Authority accepts the proposed subcontract, the Holder undertakes to conclude with its identified subcontractor a contract containing the same obligations regarding the protection of Data as those currently agreed.

The Data Controller shall justify, at the first request of the Contracting Authority, the contractual commitments of any third party involved in the processing of the Data, if necessary by communicating the contract documents relating thereto.

Security, confidentiality and audit

The Data Controller undertakes to treat the Data with the strictest confidentiality. The Contractor manages, within the scope of its responsibilities, the internal organization of his company and defines the logical, physical and organizational measures capable of responding to the specific instructions of the Contracting Authority and, more broadly, to the requirements of protection of Data against unauthorised access, misuse, fraudulent use or loss. The Contractor shall immediately inform the Contracting Authority if the measures implemented do not or no longer meet these requirements.

The Holder shall immediately report to the Contracting Authority any control measures or requests for access carried out by authorities duly authorised for this purpose, such as the CNIL or the judicial police.

These obligations of confidentiality and security of the Data remain valid after the end of the Contract as long as the Holder would continue to store the Data or access them. These obligations will only end on the day when the Data Controller ceases to access and/or store the Data.

In accordance with the provisions of Article 28 of the GDPR, the Contracting Authority must ensure compliance with the security and confidentiality measures implemented by the Holder. The contracting authority is therefore authorized, directly or through any person it has mandated for this purpose, to:

- request any useful information from the Holder justifying the implementation of security and confidentiality measures (coin checks),
- check at the Data Controller's place of activity or its subcontractor the effectiveness of the implementation of these measures (on-site controls).

The contracting authority may once a year undertake an on-site inspection at the Licensee's premises, during normal office hours, without disrupting the operation of the Licensee's business. In addition to this annual audit, the Contracting Authority may undertake any ad hoc audit in the event of a security breach by the Data Controller affecting the confidentiality, integrity or security of the Data that occurred voluntarily or accidentally, in particular any breach, loss, theft, unauthorised access, disclosure, destruction or alteration of the Data (hereinafter referred to as a "Data Breach").

The Contracting Authority must respect the operational processes of the Holder and give notice 72 hours before any visit by specifying the scope of the control, except for an ad hoc control following a Data Breach.

The Contracting Authority undertakes to make its best efforts to assist the mandated person during the controls and to allow him access to the premises as well as to the relevant equipment. The Contractor undertakes to provide, upon request of the Contracting Authority, the information required for the purpose of allowing a control, on documents or on the spot, by the Contracting Authority on the conditions for implementing the processing of Data and provide it with any documentation relating thereto.

Notification of Data Breaches by the Controller

The Holder undertakes to inform the Contracting Authority without delay, as soon as it becomes aware of any Data Breach. The Contractor undertakes to provide, together with this information, all necessary elements to the Contracting Authority (or any person expressly designated by it) to assess the risks and impacts of the Data Breach and to enable it to make any relevant decisions.

In agreement with the Contracting Authority, the Holder shall immediately implement all appropriate measures to prevent any further Data Breach.

The notification of Data Breaches to the Contracting Authority by the Holder and their management are an integral part of the Services and will not give rise to additional billing.

In the event that the applicable regulations impose on the contracting authority, in its capacity as data controller, an obligation to notify the CNIL services, the Holder shall provide him with any assistance to enable him to make such notification within the applicable time limit.

In the event that information of the persons concerned is necessary, this communication will be carried out according to a schedule and content determined by the contracting authority (where appropriate in consultation with the competent supervisory authority).

Power of investigation of the contracting authority

The Contracting Authority has extensive rights to give any instructions, in particular with regard to the nature, importance and processing of the Data. The instructions given by the Contracting Authority must be in writing and may not give rise to a request for additional remuneration by the Contractor.

As part of its obligation to advise, the Owner shall inform the Contracting Authority without delay if it considers that a directive is contrary to the French and European regulations relating to the protection of personal data.

At the end of its mission, the Holder shall, at the choice of the Contracting Authority, either hand over to the Contracting Authority the Data in its possession or erase them immediately and completely, subject to the application of legal provisions preventing the complete deletion of Data. The same applies to copies for automatic backups.

The deletion shall, where applicable, be recorded in a record with an indication of the date. A copy of this report will be sent to the Contracting Authority.

Rights of data subjects

Any request for information from the Data Controller issued by a person affected by the processing of Data, within the meaning of Article 4 of the GDPR will be immediately transmitted to the Data Protection Correspondent of the Contracting Authority or any other person expressly designated by the Contracting Authority. The same applies to any request for access, rectification or opposition. The Contractor shall provide the Contracting Authority with any assistance necessary to enable it to comply with these requests within the legal time limits.

Formalities

The Holder shall cooperate with the Contracting Authority and provide it with all the information necessary for the latter to draw up and update the list of automated processes provided for in article 47 of the decree of 20 October 2005, or, more generally, carry out all the necessary formalities prior to the implementation of processing, including impact assessments, requests for authorisation or prior consultation with the CNIL.

Proof of conformity of processing

The Data Controller undertakes to keep and make available to the Contracting Authority any relevant documentation proving that the processing of the Data carried out by the Data Controller on behalf of the Contracting Authority has been carried out in accordance with the commitments made in within the framework of the Contract as well as any specific instructions from the Contracting Authority.

The Holder undertakes to keep said documentation, beyond the end of the Contract, until the end of the applicable limitation period during which the liability of the Contracting Authority may be incurred due to the conditions and modalities for implementing the processing of the Data by the Data Controller. The Holder may nevertheless release in advance of this obligation by submitting to the Contracting Authority at the end of the Contract said documentation.

Contracting Authority supplier management

As part of the administrative management of its suppliers, the Contracting Authority implements a processing of personal data that may concern the Holder's staff, who therefore has, pursuant to the Data Protection and Privacy Act, a right of access, rectification and opposition. These rights are exercised directly by contacting the AFD Group's Information Technology and Freedoms Correspondent, in particular by sending an e-mail to: informatique.libertes@afd.fr.

15.3 Obligations of the contracting authority

In order to enable the Contractor to carry out its work, the Contracting Authority will ensure that:

- make available to the Holder all the elements it holds and necessary for knowledge of the problem in order to perform the Service;
- facilitate the Contractor's contact with the persons of the Contracting Authority concerned by the Service.

15.4 Miscellaneous

The Contractor may not assign any of its rights and/or obligations under this contract unless expressly agreed to in advance by the Contracting Authority.

All notifications, reports and other communications relating to the Agreement will be issued or sent to the respective addresses of the Parties mentioned at the beginning of this document. They will become effective upon receipt at this address or any new address duly notified in writing to the other party.

Any modification of the terms and conditions of the Contract, including modifications to the nature or volume of the Service or the amount of the Contract, shall be subject to written agreement by the Parties.

The originals of the Contract are drawn up and signed in French. If a translation is made, only the French version will be taken into account in case of divergence of interpretation of the provisions of the Contract or in case of dispute between the Parties.

16. Audit

The Contracting Authority reserves itself, or for the Supervisory and Resolution Authority (ACPR) or any other equivalent foreign authority within the meaning of articles L. 632-7, L. 632-12 and L. 632-1213 of the Monetary and Financial Code for Services to be performed abroad or in the framework of ACPR's cooperation with these foreign authorities) or for any other regulatory or supervisory authority, any data protection authority or any public archives authority as well as the persons designated by them have the right to carry out any audit of the Supplier. This audit could:

- Aim to verify compliance by the contractor with its contractual obligations, conditions for

performance of services and/or performance of the service provider, as well as applicable regulatory requirements;

- Relate to personal data, the details of which are set out in the Personal Data section of this contract;
- Allow the exercise of the supervisory and resolution powers of the ACPR, as provided for in Article 63 paragraph 1 point a) of Directive 2014/59/EU and Article 65 paragraph 3 of Directive 2013/36/EU.

The Contracting Authority reserves for itself and the ACPR, as well as any person designated by them, the unconditional right to inspect and audit the way in which the service provider complies with the applicable contractual and regulatory requirements. In this context, the contracting authority, the ACPR and the third parties mandated by them will have full access to all relevant business premises (head offices, operational centres, etc.), to all aircraft, Relevant systems, networks, information and data used to deliver services, including related financial information, as well as the staff members and external auditors of the service provider to whom written or oral explanations may be requested, free of charge.

The contracting authority also reserves the right to carry out so-called individual audits and intrusion tests at the service provider in order to assess the effectiveness of the measures and processes implemented in terms of cyber security and internal ICT security.

In the case of subcontracting, duly authorised by the contracting authority, the service provider shall ensure that the subcontractor grants to the contracting authority and ACPR the same contractual access and audit rights as those granted by the service provider.

This audit may be carried out at any time at the discretion of the Contracting Authority, including once the contract has ended, within a limit of five (5) years.

The Contractor is notified by the Contracting Authority, the ACPR or third parties acting on their behalf of the audit in writing one month before the start of the audit, unless this is impossible due to an emergency or crisis situation or leads to a situation where the audit would no longer be effective. To this end, the Contracting Authority may appoint an independent expert who is not a competitor of the Contractor and who must sign a confidentiality agreement.

The Contractor undertakes to cooperate with the Contracting Authority or its representative as well as with the ACPR and to facilitate their audit by providing them with all necessary information and responding to all their requests related to this audit, within the authorized limits of the control listed at the beginning of this article. In the event that their requests exceed these contractual limits of the authorized audit, the Contractor will alert the Contracting Authority. Both parties will seek the best way to achieve the above control within the contractual limits.

During the entire duration of the Contract and during the period of tax prescription after its termination, the Holder undertakes to keep at the disposal of the Contracting Authority and its authorized auditors, all accounting documents and other documents relating to the services covered by the contract.

The Holder undertakes to maintain complete and accurate records of invoices and all associated documentation related to the establishment of these invoices.

These archives include (non-exhaustive list):

- Physical documents (paper, CD...),
- Electronic documents (e-mails and information stored in electronic databases)

In the event that the Contracting Authority requires the production of documents in the exclusive and demonstrated possession of the Contractor, audits will then be conducted at the premises of the Contractor and must comply with opening hours, the practices and safety rules in force on the premises in question. The Contracting Authority may access the premises of the Licensee after having notified its request in writing and respecting a 72-hour notice.

The cost of this audit is borne by the contracting authority except in the event that this audit reveals a failure on the part of the Licensee.

17. Reversibility

At any time during the execution of this contract, at the request of the Contracting Authority, as well as in case of expiration or termination of all or part of the contract for any reason whatsoever:

The Holder undertakes to ensure reversibility and to do everything possible in legal and human terms to enable the Contracting Authority, on the date of termination of the Contract, to take over or have taken over by a third party the service subject to this Contract, in the most coordinated way possible and under the most economical conditions for the Contracting Authority, and allowing in particular the continuity of the service, object of the contract, with a minimum of interruptions. For this purpose also, after the termination of the Contract and during a transition period of 3 months, the Holder will continue to provide the service before that it is taken over in full and effectively by the Contracting Authority or by a new service provider designated by it.

Upon termination of the Contract, for whatever reason, the Contractor shall keep at the disposal of the Contracting Authority any document that may be necessary to him in connection with the resumption of the service, whether it is to provide it itself or entrust it to a third party.

At the request of the Contracting Authority, the Contractor undertakes, for a maximum period of two (2) months from the end of the Contract, to respond to any request for assistance, even ad hoc, made by the Contracting Authority or by the Contractor designated by it there to take over the service subject to this Contract.

The Parties agree to the following provisions with respect to the reversibility assistance services provided by the Holder:

- if the reversibility results from a cancellation or termination of the Contract, following a fault or default of the Holder, or if it results from a non-renewal at any of the deadlines of the Contract due to the Holder, the services of assistance to reversibility carried out by the Holder are not invoiced to the Contracting Authority,
- if the reversibility results from the occurrence of a case of force majeure or a termination of the Contract in the context of shared damages, the costs of the assistance to the Reversibility are divided by half,
- if the reversibility results from any other cause of interruption of this Contract, the services of assistance to reversibility performed by the Holder shall be invoiced to the Contracting Authority in their entirety.

In this context, the Holder undertakes to:

- return, in an integrated, usable and agreed format, all the data belonging to the Contracting Authority as well as personal data previously communicated by the Contracting Authority,
- destroy any copies of this data and not use it for own use or for the benefit of third parties

The Holder undertakes to make every effort to ensure access to the data belonging to the Contracting Authority even in the event of insolvency, resolution or interruption of the Holder's business activities. It will not sub-outsource the Service or transfer data to a third party without the prior written consent of the contracting authority and will refrain from any measure that has the effect of hindering the Contracting Authority's access to the data belonging to it. In the event of a voluntary interruption of its commercial activities related to the Service, the Holder undertakes to notify the Contracting Authority at least 3 times beforehand and to ensure the reversibility of the outsourcing of the Service

18. Termination of the Contract

Articles L 2195-1 and following of the public procurement code and articles 36 to 42 inclusive of the CCAG-PI will be applied with the following clarifications:

18.1 Termination of the Licensee's Tort

The Contracting Authority may, after a formal notice which has not been successful within the time limit set and subject to no less than fifteen (15) days' notice, terminate the contract for damages of the Contractor under the conditions laid down in article 39 of the CCAG-PI.

More specifically, and in a non-exhaustive manner, the contracting authority reserves the right to terminate the contract if:

- Repeated non-executions or poor quality executions of operational expectations and requirements;
- repeated application of the penalties provided for in Article Penalties of this Agreement, not followed by significant improvement;
- repeated findings of rejection or postponement of benefits, in application of the provisions of the verification and validation operations of the services in article Admission - Completion of this Contract;
- non-compliance with the provisions of the Annex to this Security Agreement.

The deficiencies referred to above must be previously acknowledged by the parties in the Steering Committee.

The Contracting Authority also reserves the right to terminate the contract with the Contractor when:

- the latter no longer has the required certifications and approvals for the performance of the Service;
- Where the processing, management or security of confidential information and personal or sensitive data has weaknesses such as integrity, security, confidentiality or fair treatment of such information and data appears to be compromised.

This termination for fault is made without prejudice to other actions, including criminal, which would be initiated in this case against the Holder.

In the event of termination due to fault:

- Sections 27 and 39 of the CCAG PI are applied with the following clarifications: the contracting authority may have a third party carry out the services provided for in the contract at the expense and risk of the contractor under the conditions defined in Article 27 of the CCAG PI. The decision to terminate shall expressly mention this;

- The Data Controller is not entitled to any compensation;
- By way of derogation from and in addition to Articles 39 and 41.3 of the CCAG PI, the fraction of services already performed by the holder is remunerated with a 10% reduction.
- The Contractor shall indemnify the contracting authority for all costs and/or damages incurred by the contracting authority as a result of the termination of the contract directly or indirectly, and in particular where applicable, the costs incurred by the contracting authority as a result of replacing the Licensee with a new service provider.

In the event of termination pursuant to article L2195-4 of the Public Procurement Code, the equivalent offences provided for by the legislation of another state outside the European Union will also be applied. In addition to article 39 of the CCAG PI, in case of non-production within 8 days of acceptance of a subcontract of second and higher rank submitted by the sub-contractor dealing with a Tier 1 and above guarantee of a personal and joint and several surety guaranteeing the payment of all sums owed by them to the second or higher sub-contractor, and after notice to the Tier 1 and above sub-contractor and the contract holder, remained without effect within a fixed period of 8 days, the contract will be terminated for damages to the holder without the latter being able to claim compensation and, where appropriate, with performance of the services at its own expense and risk.

18.2 Termination for reasons of general interest

In the event of a termination for reasons of general interest, or at the request of the ACPR, the termination indemnity is fixed at 5% of the contract amount, excluding VAT, less the unrevised VAT amount of the admitted services.

Without prejudice to articles L. 8222-1 to L. 8222-3, any legal person governed by public law who has entered into a contract with an undertaking shall be informed in writing by a control officer of the irregular situation of that undertaking with regard to the formalities referred to in articles L. 8221-33 and L. 8221-5, immediately enjoins the company to put an end to this situation without delay. The

undertaking so required shall, within two months, provide the public person with evidence that it has put an end to the tort situation. If this is not done, the contract may be terminated without compensation at the contractor's expense and risk. The public-law legal person informs the reporting officer of the action taken by the company on his or her direction. If he fails to comply with the obligations arising from the first and third paragraphs of this article or, in the case of continuation of the contract, if proof of the end of the criminal situation has not been furnished within six months following the notice of default, the legal person governed by public law is jointly and severally liable with its co-contractor for payment of the sums mentioned in 1° to 3° of article L. 8222-2, under the conditions set out in article L. 8222-3.

Refers to the DFA, party to the Contract.

- The Provider

Designates the contractor party to the Contract.

- Information system

All hardware, software, methods and procedures and, if necessary, personnel required to process the Information.

- Information

Refers to information belonging to the Client, whether or not stored on its information system and which may be accessed by the service provider in the course of the contract.

- Remote connection

Refers to a connection that provides remote access to the Client's information system from an infrastructure not owned by the Client.

General

The Client regularly uses service providers, who are required to have access to the Information in connection with the performance of their services. It is therefore necessary to provide a framework for such access to information and its use, and to define the security rules applicable to service providers.

The purpose of this annex is to secure the conditions for access to the Information and its use, in particular by defining the criteria for granting the Service Provider secure and controlled access to the Information and preventing that may be used without permission.

The provisions of this annex apply to the Service Provider, employees and subcontractors who have or may have access to the Information.

Commitment and rights of the parties in matters of security

The Client makes available to the Service Provider its documentation regarding information security (policies, procedures and rules) necessary for the execution of the contract. The Service Provider undertakes to take note of the documentation provided by the Customer regarding information security and to comply with the policies, procedures and rules contained therein. The Service Provider undertakes not to disclose this documentation transmitted as part of the performance of the Contract.

The Service Provider undertakes to subject its staff and subcontractors working on its behalf to security controls and must be able to provide evidence regarding the modalities and results of these controls.

The Service Provider undertakes to keep a list of individuals authorised to use the access and logistics services provided by the Customer on its behalf.

The Service Provider undertakes to inform the Client in writing, and as soon as possible, of any changes made to the list provided for in the paragraph above and to propose any changes it considers necessary regarding the nature or scope of access to the Information. It is the responsibility of the Client to formally notify the Service Provider of its agreement on the requested changes. Without this formal agreement, the change is deemed rejected.

The Service Provider undertakes to respect the intellectual property rights relating to the information and software made available by the Customer.

The Service Provider is informed that the Client processes information subject to banking secrecy within the meaning of the French Monetary and Financial Code. The Service Provider undertakes to respect the confidentiality of the client's information under the professional secrecy governing its profession.

The Client and the Service Provider are each responsible for the selection, implementation and maintenance of their own security procedures and policies as well as their suitability for the services to be performed under the Contract. This is to protect their respective information from unauthorized access, modification or destruction.

As part of the implementation of its security policy and procedures, the Client has the right to record and supervise any activity carried out by the Service Provider in execution of the Contract. As such, the Service Provider's staff and its subcontractors are subject to the same controls as the Customer's staff.

The Client may require the Service Provider to provide a copy of the identity document of its employees in charge of performing the services provided under the Contract before access to the sites and/or Client's Information is granted.

The Customer reserves the right to deny access without notice to any employee of the Service Provider or to require replacement if such employee does not comply with security policies, procedures and rules.

Access control

The Service Provider undertakes to access only the information strictly necessary for the performance of its mission. Access to the information, services and infrastructures granted to the Service Provider is limited to the minimum necessary for the performance of its services under the Contract. The Service Provider will inform the Client as soon as possible if it notices an error in the allocation of access preventing it from performing its mission or exceeding the scope of its mission.

Access to the Client's computer system and/or premises is given by name to persons acting on behalf of the Service Provider as part of the performance of the Contract.

Access may be permanently subject to protective mechanisms and recorded. For the purpose of protecting and controlling access to its Information, the Customer does not limit itself to the protection mechanisms put in place by the Service Provider. The Customer grants, controls and revokes the Service Provider's access to the premises and Information necessary for the performance of the services. As such, the Service Provider is informed that its personnel acting within the framework of the contract may, at any time and without prior notification, be subject to security checks based on traces recorded on the Customer's IS.

If it is necessary to provide access to classified information

"CONFIDENTIAL" or above, or at the Client's premises where such information is stored, processed or disseminated, a risk assessment will be carried out to identify the protection mechanisms to be put in place. The protection mechanisms identified during the risk assessment will be notified to the Service Provider, documented and implemented.

In order to access the Customer's information system, the Service Provider must use exclusively the computer equipment made available by the Customer, unless the latter has previously authorised the Service Provider in writing to use other means of access.

Remote connection to the client network

Any remote connection to the Customer's network must be made through a computer equipment or an access portal made available to the Service Provider by the Customer. The Customer may, without notice or justification, interrupt, refuse or extend a remote connection to its network. The Client disconnects the remote network connection when it is no longer required.

The remote connection to the Client's network is permanently recorded and archived for memory.

Risk assessment

Upon the Client's decision, the service may be subject to an assessment in order to determine the risks relating to the security of information. This assessment focuses primarily on the possible consequences for the Client of any breach of the availability, integrity, confidentiality and transmission chain of its Information used in connection with the service.

Final provisions

Failure to comply with this security annex constitutes a breach of the Contract which may justify its termination without penalty for the Customer.

In addition, a delay or postponement resulting from the Service Provider's failure to comply with safety rules and the measures taken by the Customer to remedy them, pursuant to this annex, cannot be invoked by the Service Provider to request any extension of the deadlines for performance of the services of the Contract, to which the Service Provider remains bound, or any exemption from penalties.

This security annex may be revised by the Client every year and amended as necessary without penalty or additional cost.

Annex: AFD External Review of Security Plan for Service Providers

Instructions for use

Date of expiry of this schedule: 13 July 2024

In case of a request for safety plan review later on this date, please contact your reference who will provide you with an updated appendix.

What is it?

Your organization:

- **Just signed a service contract with the French Development Agency (AFD) taking place for all or part in an orange area** ("not recommended unless imperative reason") or red ("formally not recommended") according to the classification of the French Ministry for Europe and Foreign Affairs.
- **Has signed a contract with AFD for the provision of services in an area that the French Ministry for Europe and Foreign Affairs has recently downgraded to an orange or red zone.**

Before travelling to these areas, you must submit your security plan to a specialized firm, chosen and financed by AFD (article X of the contract).

This procedure is part of an **enhanced operational safety scheme adopted by AFD in 2020. It aims to support AFD** providers deployed in the orange and red zones, by providing them with an external assessment of the adequacy of the resources deployed (technical, human, financial) and the security risks associated with the service. This review systematically includes operational recommendations. DFS will not be aware of the findings of this review, and your organization will be solely responsible for taking into account all or part of these recommendations.

Amarante International has been appointed by AFD to carry out these external reviews at a distance. They will be carried out by senior consultants with at least 8 years of multi-zone experience in international safety management.

How to proceed?

Preliminary remark: The coordination of the exchanges/procedures necessary for the success of the review is entirely the responsibility of Amarante and **the provider. AFD will not be involved in the technical aspects of the review, nor in the monitoring of its implementation. Thus, the Agency will have no knowledge of the system put in place by the service provider, nor of the recommendations issued, nor of the follow-up given by the service provider to the recommendations. Furthermore**, AFD's resources cannot be mobilised by either the service provider or Amarante.

The service **provider thus directly requests Amarante via surete.prestataire.afd@amarante.com**. This request should include the following information:

- Information on the service provider,
- Project location(s) and duration
- Elements on the overall project setup
- Elements related to logistics,
- Identification and contact of the main interlocutor in Amarante.

The service provider is also encouraged to address first elements on the security arrangement.

Amarante will have a period of 10 working days from the request to submit the final report to the service provider. Upon receipt of the request, Amarante will transmit to the service provider the information necessary for the smooth running of the review, which will include a kick-off meeting (remotely), possible interviews (remotely) and a presentation meeting of the draft report (remotely).

Fields excluded from the benefit

The support mechanism does not include:

- The performance of field missions of the security firm. Nevertheless, the personnel mobilized by Amarante have extensive and recent experience on the deployment area of the service provider.
- Drafting a safety plan and supporting the implementation of recommendations.
- Support for training of the service provider's personnel, auditing of infrastructure or any other financial and technical services or support not related to a safety plan review.

- Ensure that persons authorized to process Personal Data under this contract:
