<div>Short Description<div>The Rubber Pad is a support pad for specific variants of the <i>Handset HS3</i> (e.g. order number 20-0004240) and <i>Handset TAS</i> (order number 30-00138xx). It is made of antislip neoprene and intended for positioning on a desktop. P01 is equipped with permanent magnets. This variant is used for handset variants with a built-in reed sensor for on-hook detection (e.g. <i>Handset HS3 bk REED PTT FGG.2B M</i> (order number 20-0003385) or <i>Handset TAS V05</i>):</div><div><div>Orientation of the permanent magnets (P01 only)</div></div></div>			<div>Dimensions [mm]</div> <div></div>											
<div><div></div><div>Also refer to the <i>Hardware Description</i> of the respective <i>Handset</i>.</div></div>
