La porte P4s et les portes P5s doivent disposer de la fonction "sas":  
Une seule peut être ouverte à la fois.

(PL 1) Puits de lumière sur volières

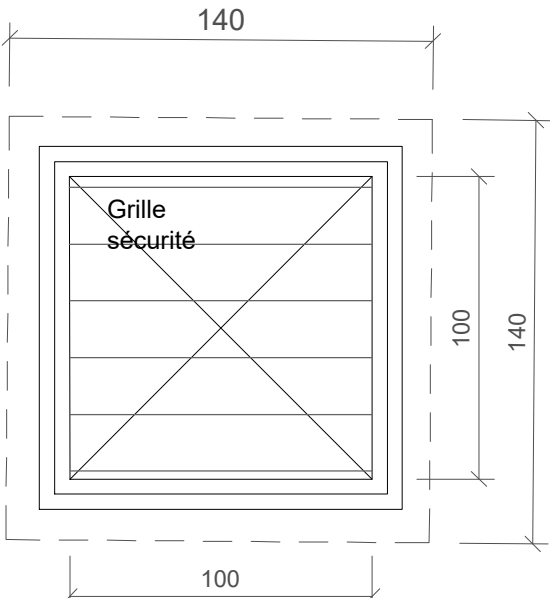

Puits de lumière Polycarbonate  
2m²

grille à ventelles  
0,25x0,25m  
+ conduit vertical galva

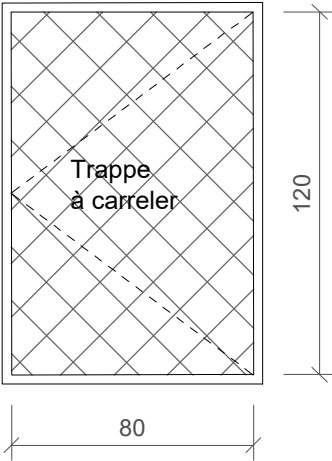

(PL 2) Puits de lumière sur couloir existant

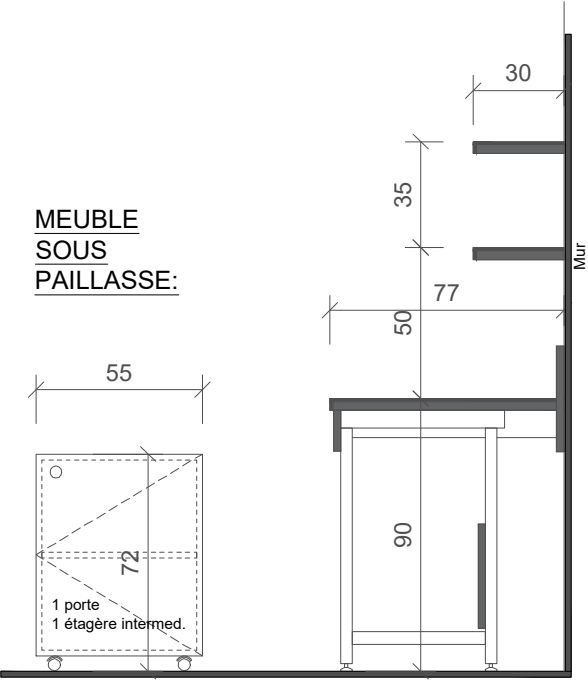

Puits de lumière Polycarbonate  
FIXE - 1m²

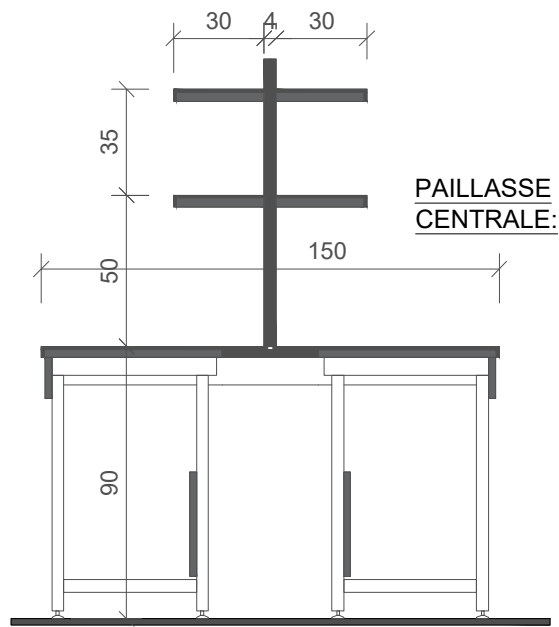

Prise aération VS

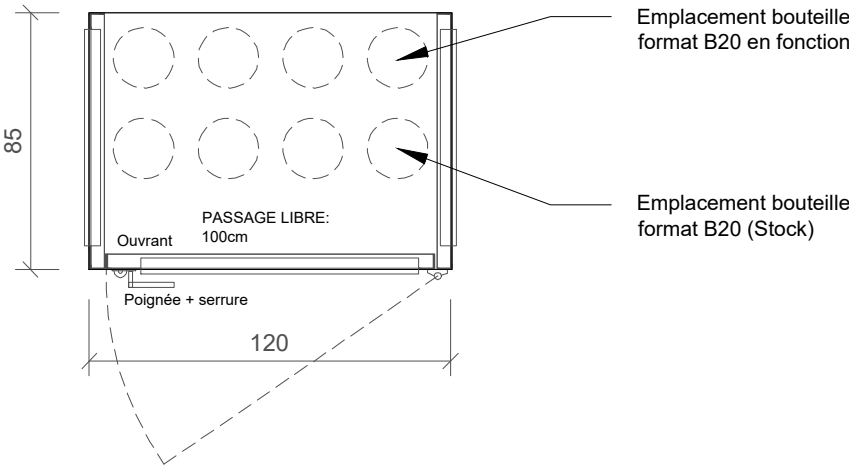

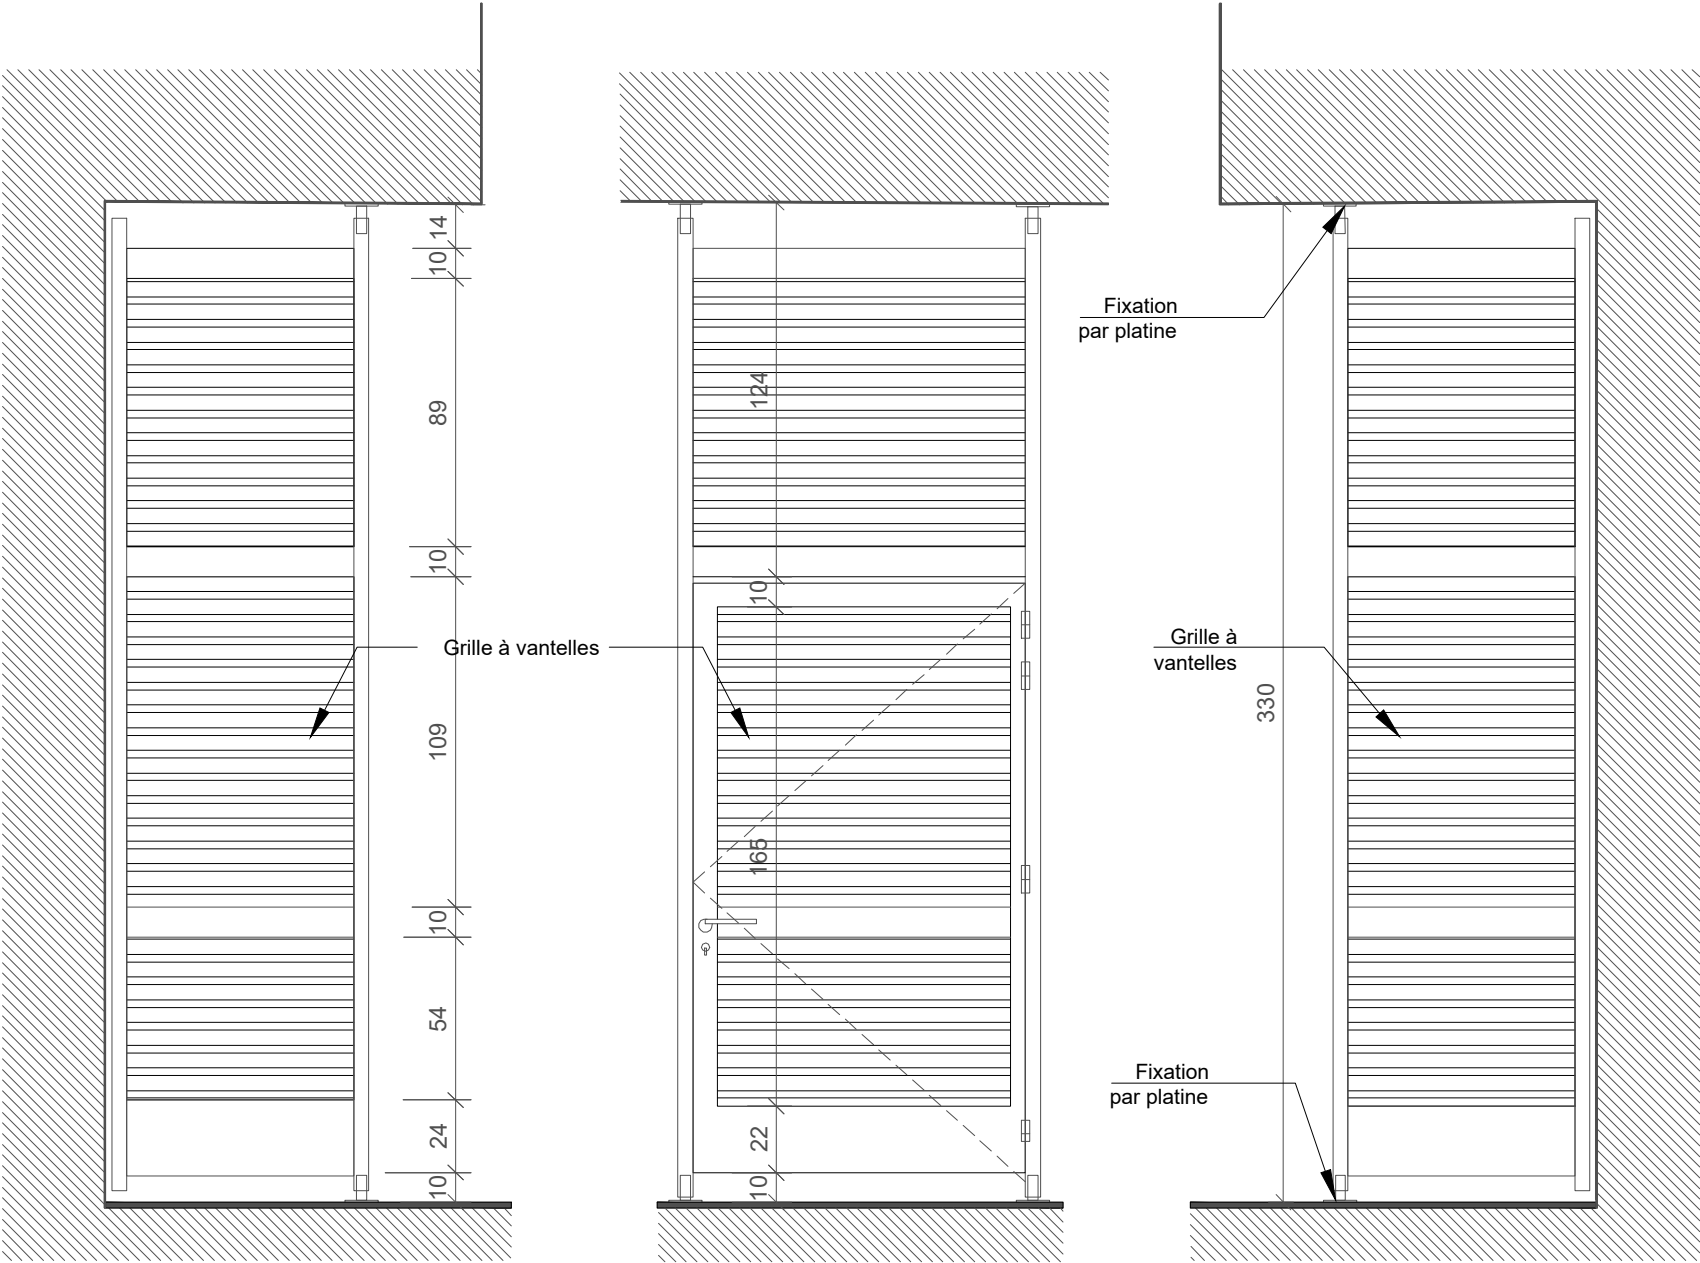

Trappe accès  
VS 80x120  
(REPLACEMENT)

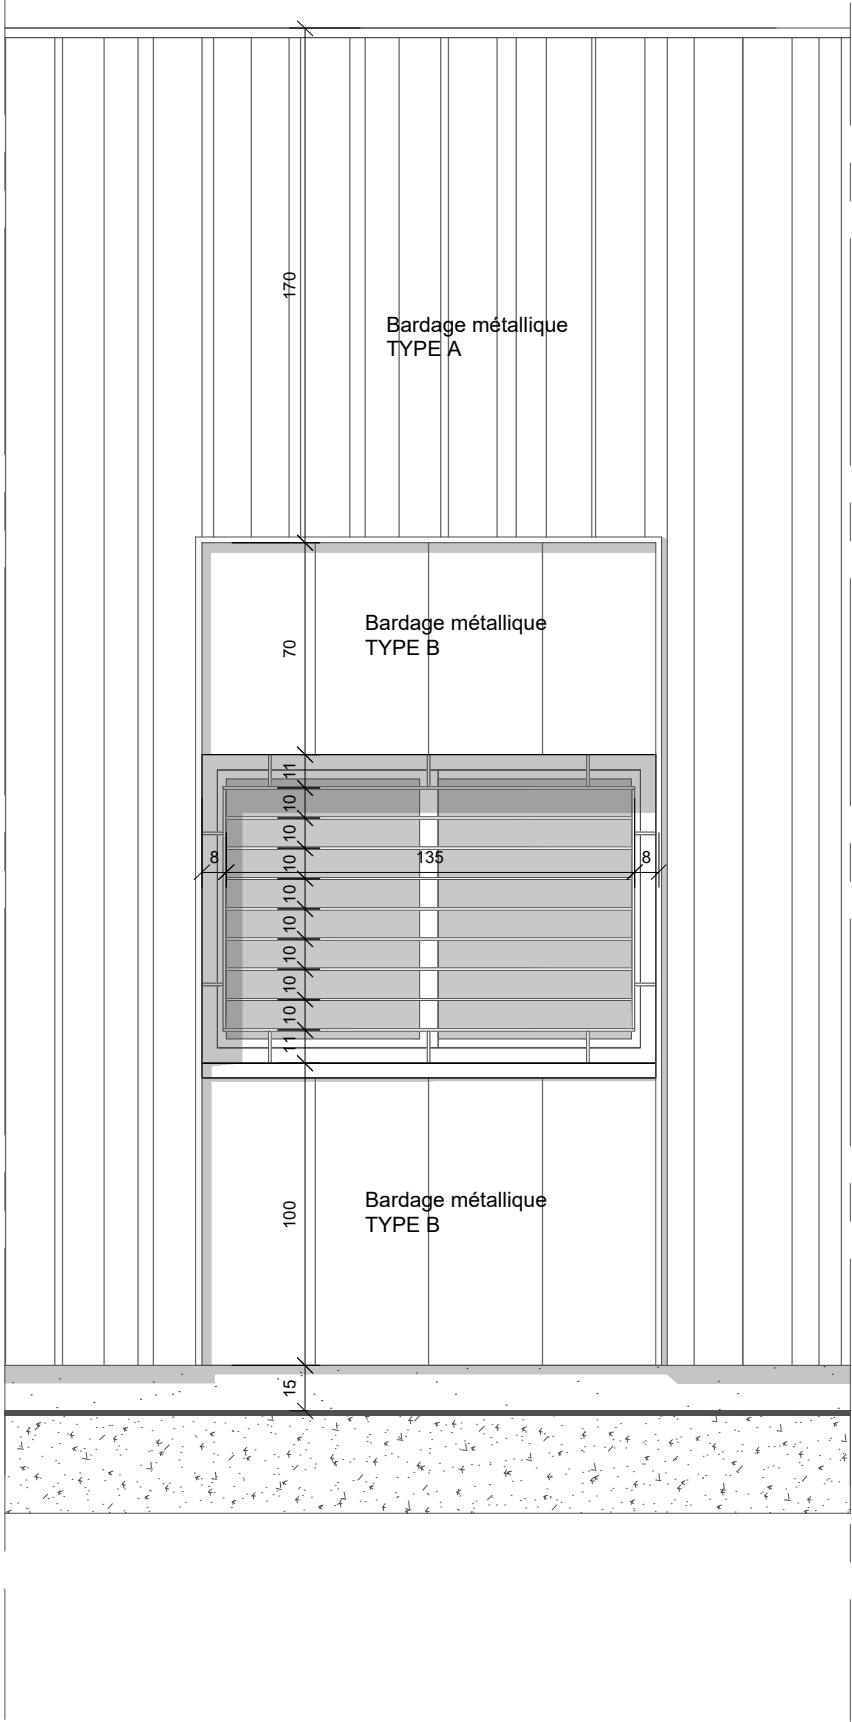

PAILLASSE MURALE + ETAGERES:

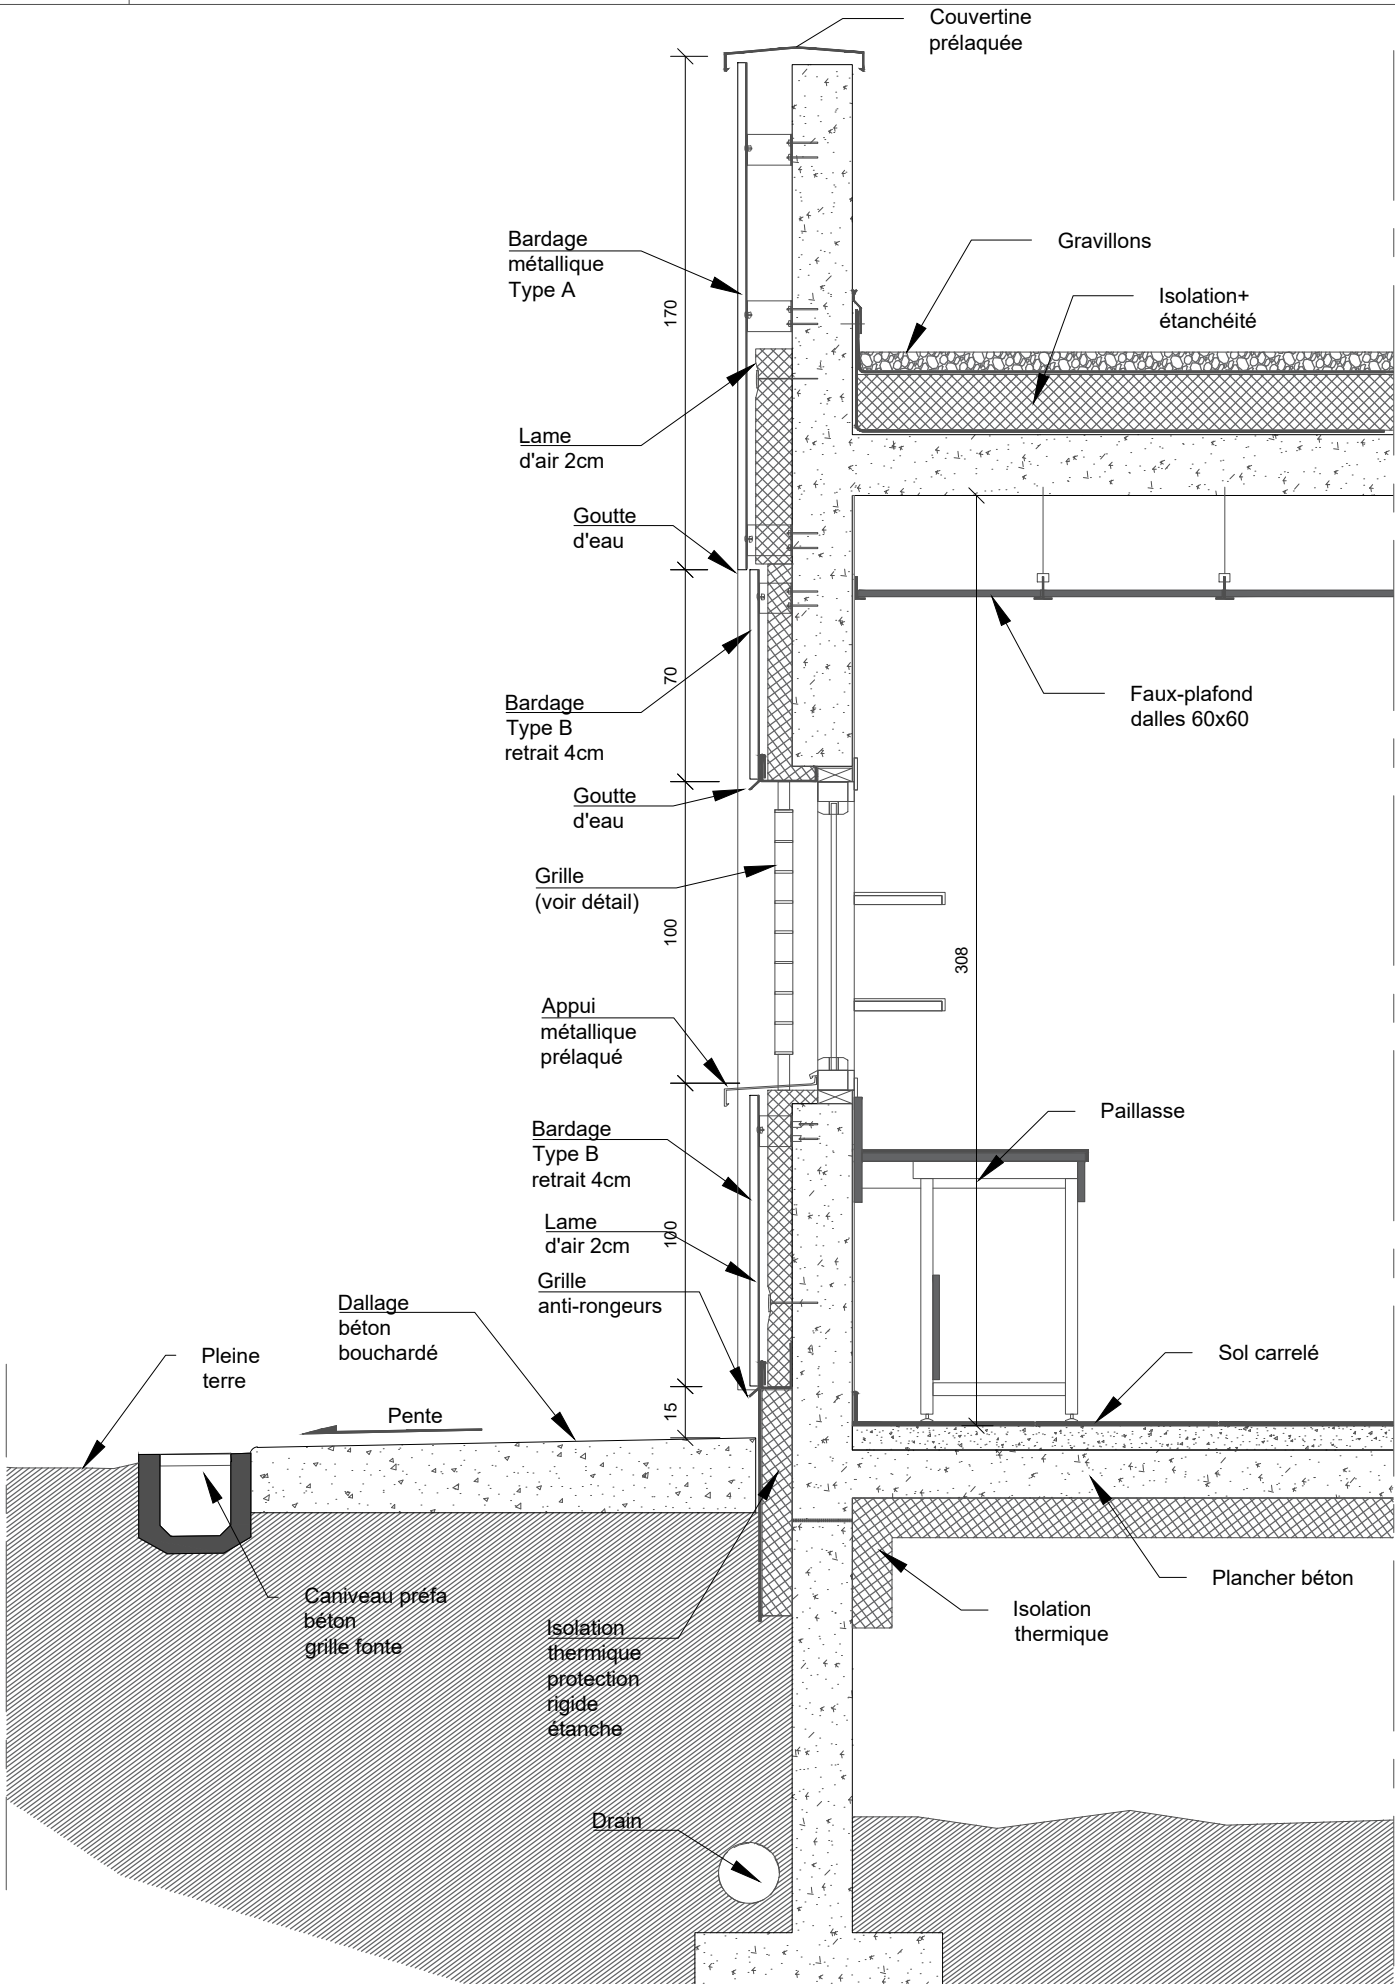

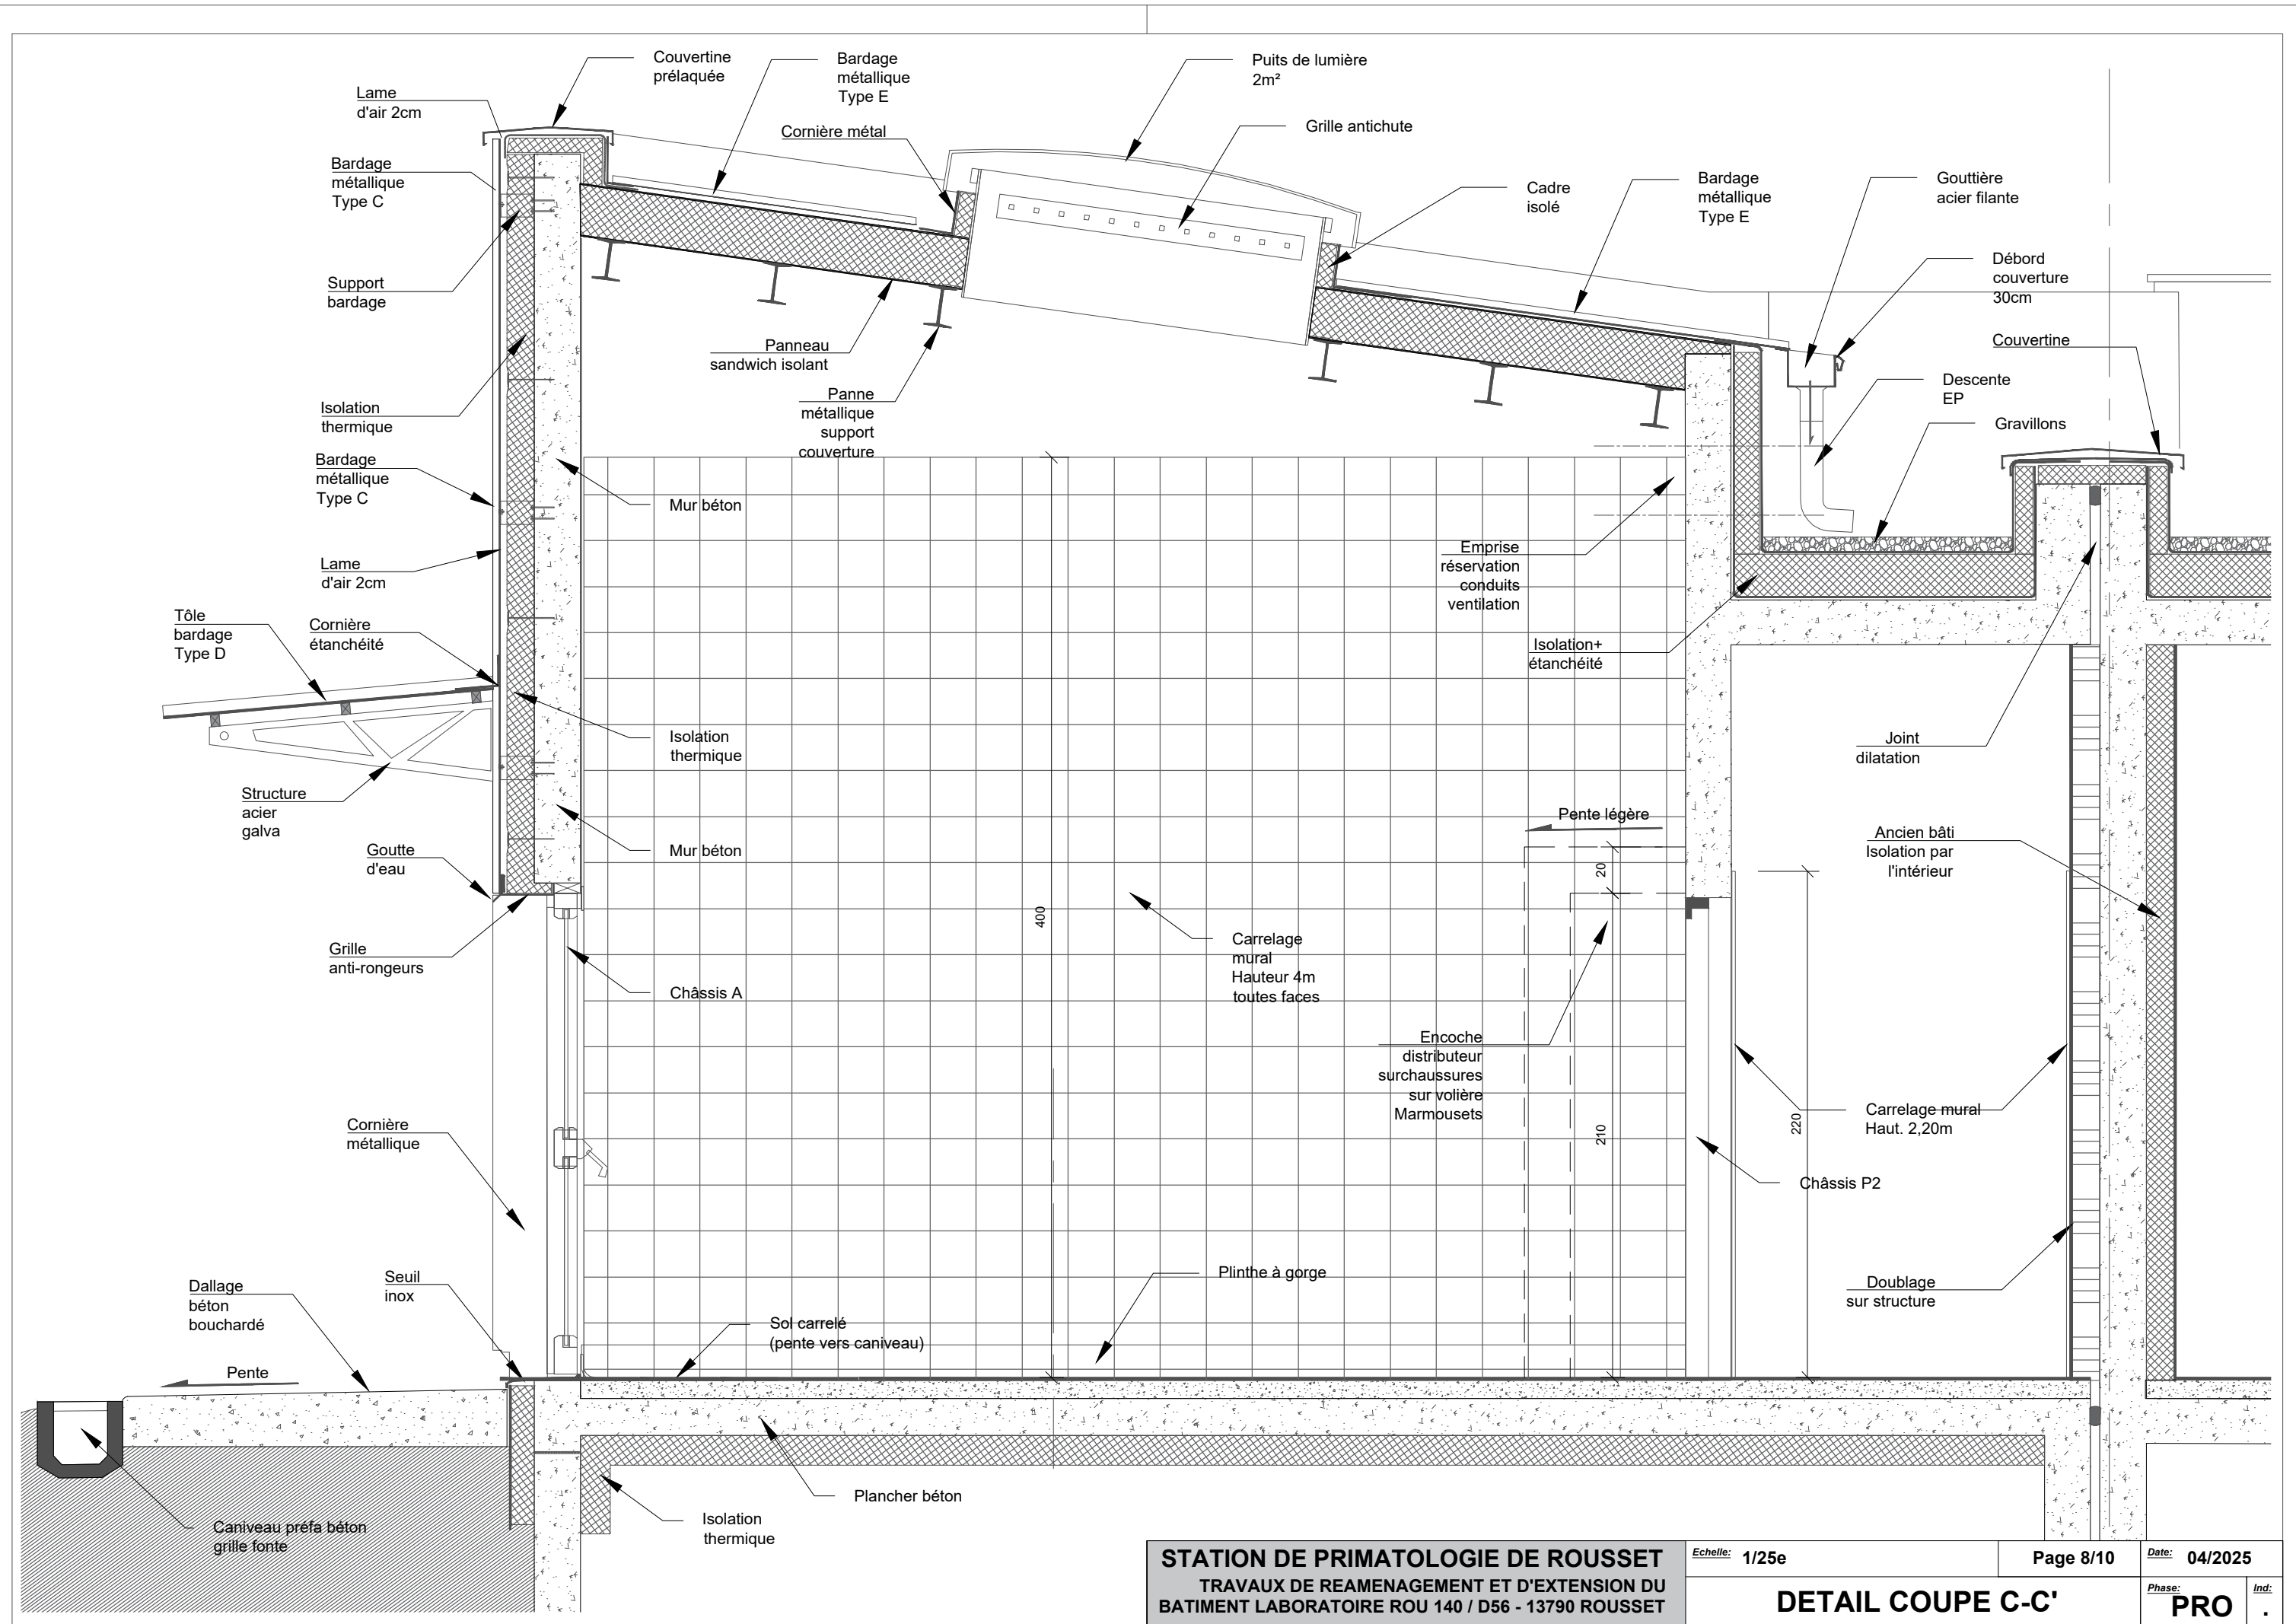

COUPES SUR PAILLASSES

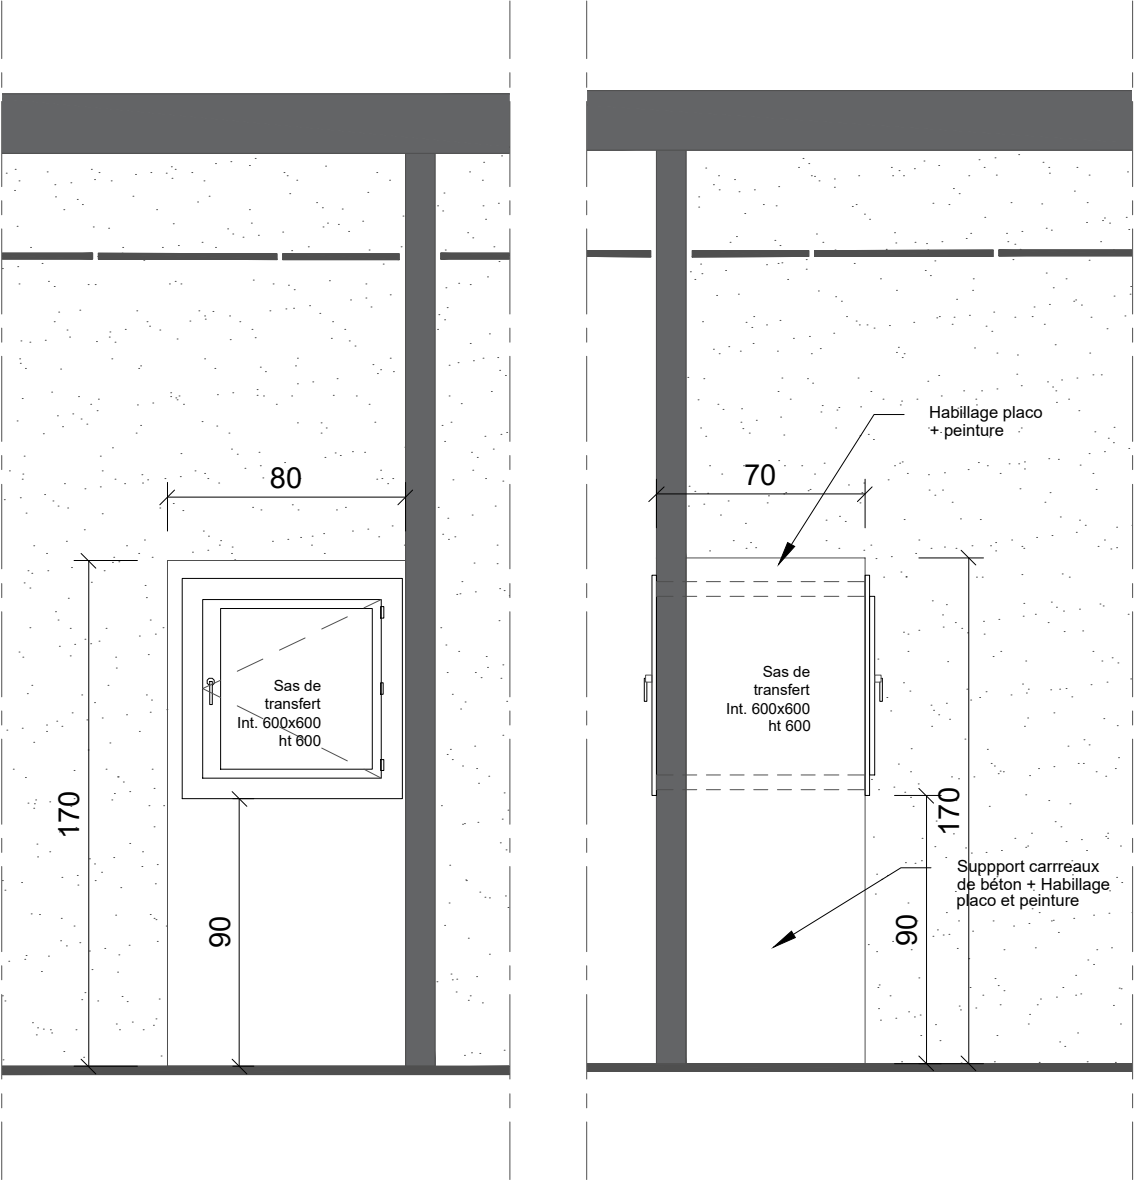

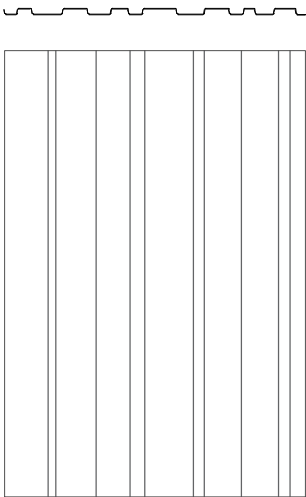

Extrait façade

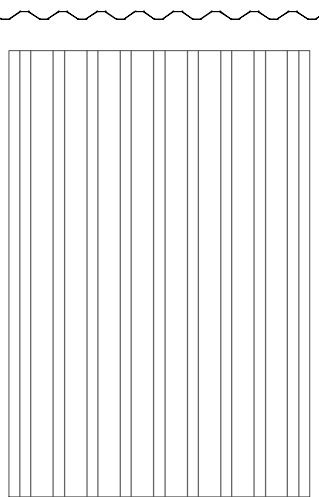

Sas de transfert (principe de pose)

Bardage métallique  
TYPE A

Extension laboratoire  
Bâti général

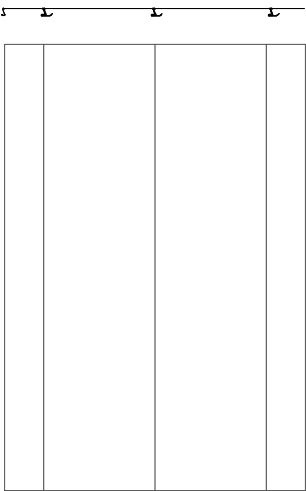

- Motif aléatoire
- Ondes rectangulaires
- Teinte au choix

Bardage métallique  
TYPE D

Auvent extérieur

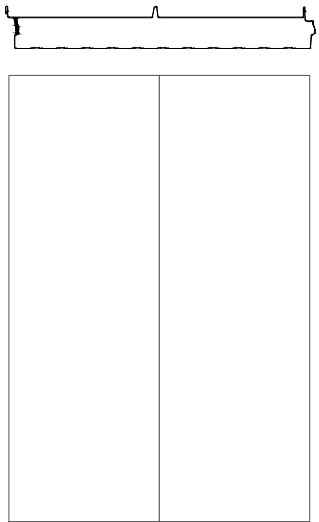

- Motif type ondulation
- motif angles 45°
- Largeur type 15cm
- Teinte au choix

Bardage métallique  
TYPE B

Extension laboratoire  
Sur ouvertures

- Motif type clins verticaux
- Lisse ou motif fin
- Largeur type 30/35cm
- Teinte au choix

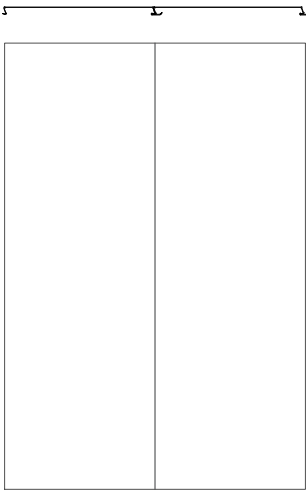

Bardage métallique  
TYPE E

Panneau sandwich

Extension volières  
Toiture

- Motif type joint debout
- Lisse ou motif fin
- Largeur type 60cm
- Epaisseur selon CCTP
- Teinte au choix

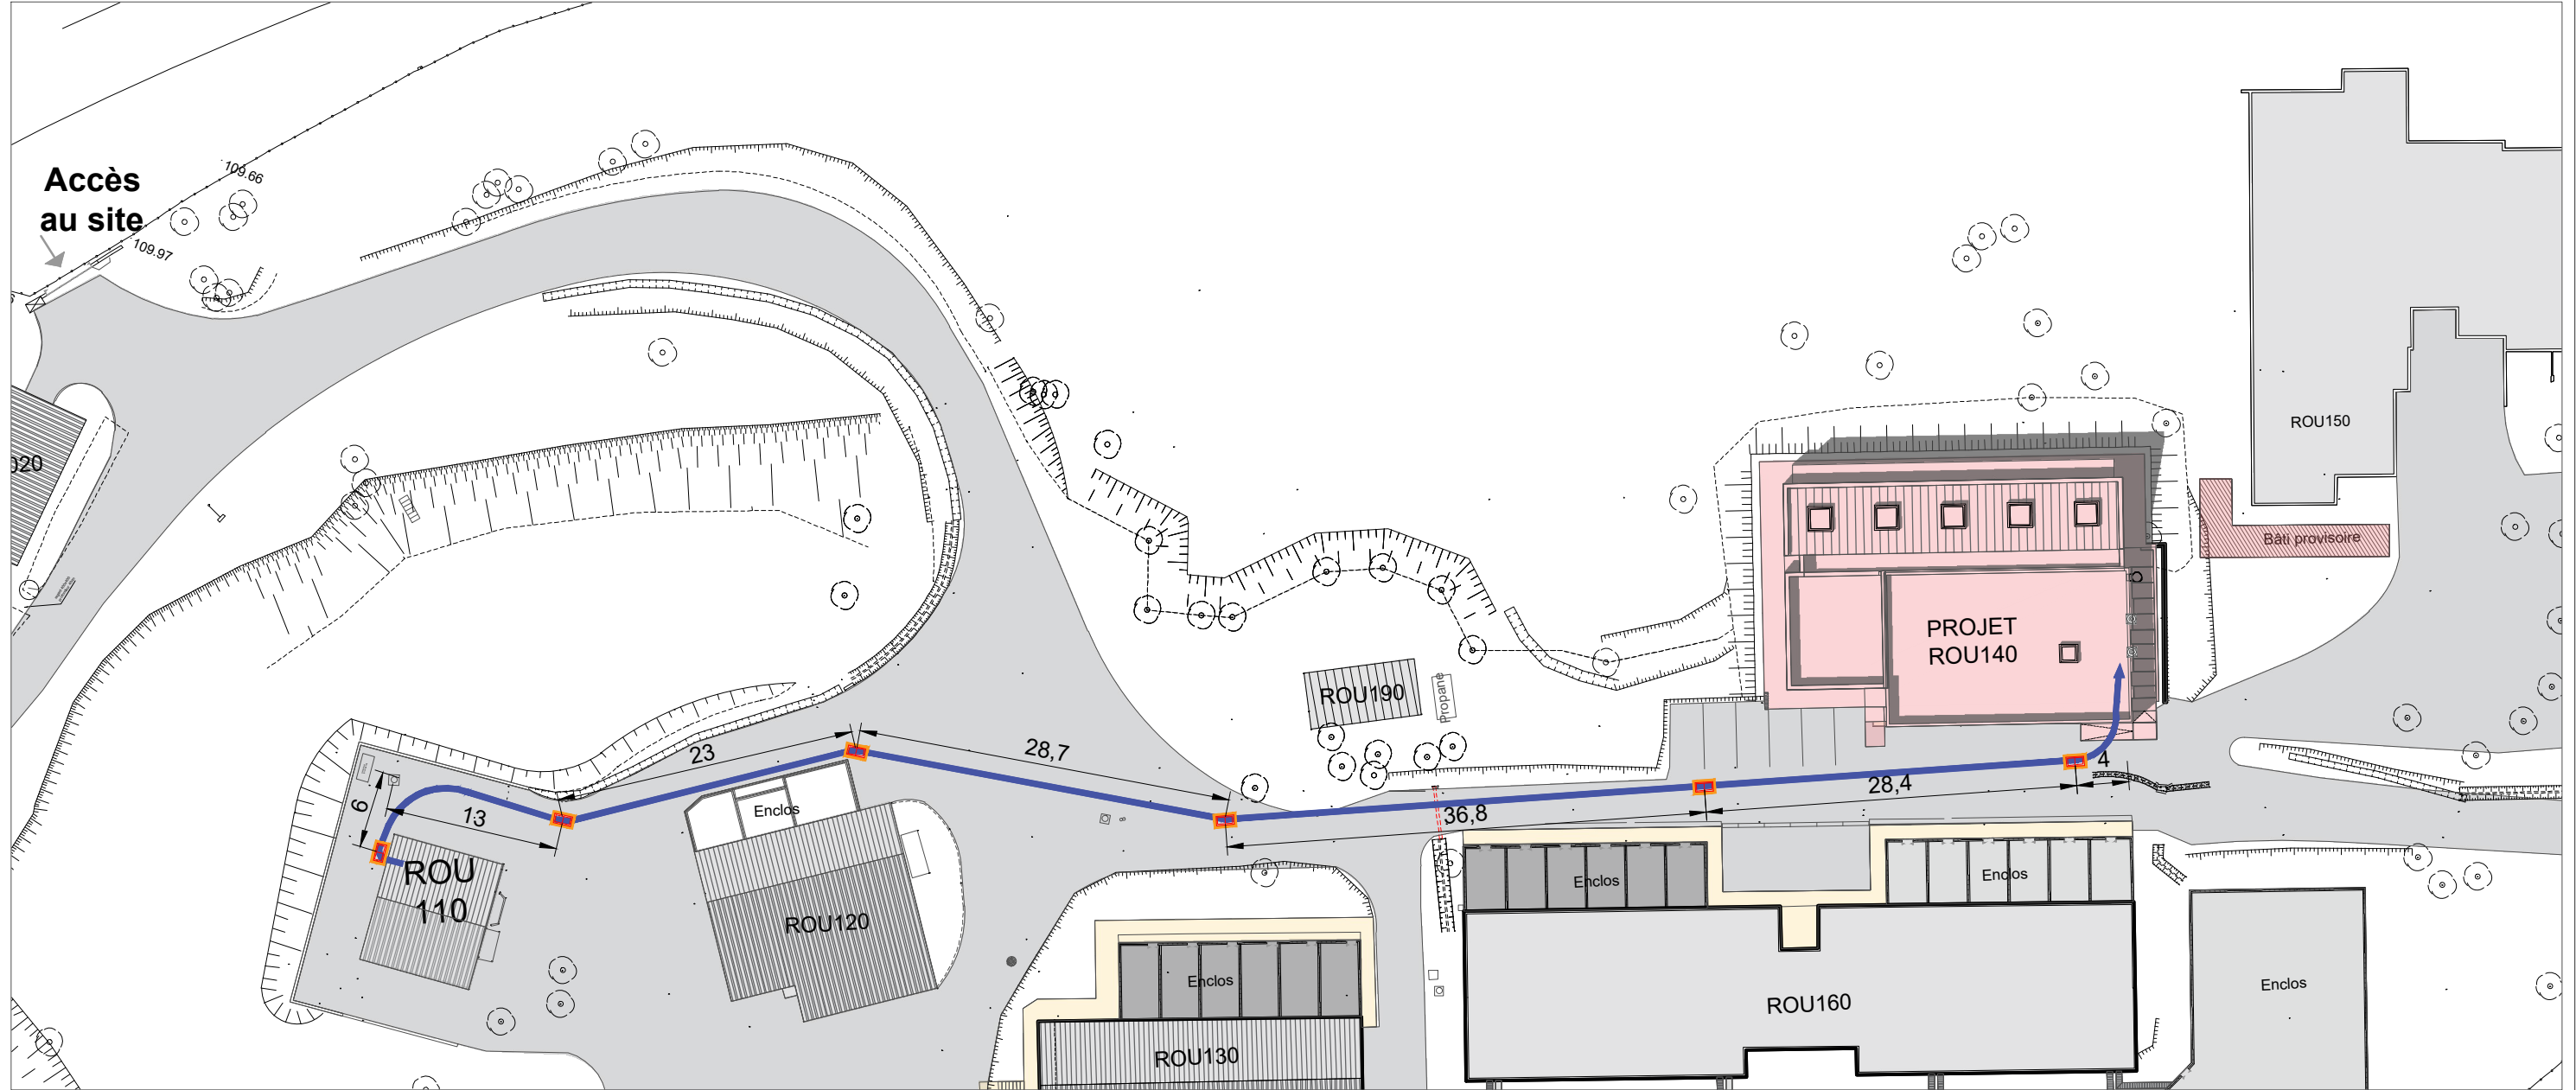

Bardage métallique  
TYPE C

Extension volières

- Motif type clins verticaux
- Lisse ou motif fin
- Largeur type 60cm
- Teinte au choix

Types de bardages

Tranchée électricité : ~150ml
