

The architectural floor plan for ZC11 depicts a complex layout with a central room and several surrounding areas. Key features include:

- Central Room:** A large rectangular space containing multiple rectangular units labeled "Dépose + reprise". A central area is marked with a large "B". A "Cheminée" (chimney) is located near the top center. The top and bottom edges of this room are labeled "gardiens-Corps Créés".
- Left Wing:** Contains a staircase labeled "Escalier existant Niveau 45.100" and a "Sky à changer Niveau 45.100". A "DF" (Door Frame) is indicated near the stairs. A "Cheminement" (pathway) is shown leading from the central room.
- Right Wing:** Features a "Cheminement" leading to a "Salle CTA" (Control Room) and another "Salle CTA" further right. A "B" (Door) is marked near the staircase.
- Structural Elements:** Several "Salle CTA" (Control Room) areas are marked with "X" symbols. "ESC DF" (Emergency Stop Door Frame) locations are marked with "X" symbols. "EP / à relever" (Elevated / to be raised) areas are also indicated.
- Other Labels:** "Cheminement" (pathway) is used to describe the routes between different sections of the plan.
