1. Subject of the contract

The purpose of the consultation is: Final evaluation of the COMBO+ Project - Final evaluation of the Combo+ project.

Place of performance: In the Chamber - Field mission to be planned (Guinea, Laos, Madagascar, Mozambique)

1.1 Form of the market

The consultation is not broken down into lots. The services will give rise to a single market.

This contract is also not subject to tranche or PO splitting.

1.2 Duration of the contract – Renewal – Lead times

The duration of the contract, the renewal terms and the execution times are set out in the Contract.

1.3 Maximum budget allocated to this contract

The maximum budget allocated to the services is limited to **80,000.00 euros including taxes/net of VAT**

2. Organization of the consultation

2.1 Procurement procedure

This consultation is conducted in compliance with the provisions of Articles R. 2123-1 and R. 2123-5 of the Public Procurement Code, according to an appropriate open procedure with possible negotiation, freely defined by the contracting authority.

The contracting authority will analyse the candidates' tenders on the basis of the tender selection criteria and select the 2 candidates with whom it will negotiate.

In accordance with Article R. 2144-3 of the Public Procurement Code, the verification of fitness to engage in professional activity, the economic and financial capacity and technical and professional abilities of the candidates may be assessed at any time during the procedure and no later than before the award of the contract.

At the end of these negotiations, it will select the most economically advantageous tender on the basis of the criteria for selecting tenders set out in the notice and/or in this Rules of Consultation.

2.2 Justification in case of non-allotment

The object of the contract does not allow the identification of separate services.

2.3 Provisions relating to groupings

The contract may be awarded to a single company or to a group of companies.

Possibility of submitting several tenders for the contract, acting both as individual candidates and as members of one or more groups:

- ☐ Yes
☒ No

Or as members of several groups:

- ☐ Yes
☒ No

2.4 Free variants

Free variants are not allowed.

2.5 Imposed variants

There is no PSE planned.

2.6 Modification of the DCE

AFD reserves the right to make detailed changes to the DCE no later than **6 days** before the deadline set for the submission of offers.

The bidders will then have to respond on the basis of the amended file without being able to raise any claim in this regard.

If during the review of the file by the candidates, the above deadline is postponed, the previous provision applies according to this new date.

2.7 Validity period of the offers

The validity period of offers is **120 days** from the deadline for submission of the final offer.

3. Content of the consultation file

The consultation file includes the following documents:

- **The present Consultation Rules. (RC) (French and English Version)**
- **The Application form (French and English version)**
- **The Single Contract (CU) and its possible annexes (French and English version)**
- **The specific technical clauses book (or Terms of reference (CCTP/TDR)) and its possible annexes (English version only)**
- **The breakdown of the overall and lump-sum price. (DPGF)**

The French version automatically prevails in case of contradiction between the documents.

4. Withdrawal of the consultation file

The contracting authority informs the candidates that the consultation file is dematerialized.

The Business Consultation File (DCE) can be consulted and downloaded free of charge at the

following address:

<https://www.marches-publics.gouv.fr/>.

In order to be able to decompress and read the documents made available by the contracting authority, economic operators must have software enabling them to read the following formats:

- Files compressed to standard *.zip (readable by Winzip, Quickzip);
- Adobe® Acrobat® *.pdf (readable by the Adobe Reader software);
- *.doc or *.xls version 2000-2003 (readable by Microsoft Office or OpenOffice);
- Rich Text Format *.rtf;
- If applicable, the DWF format (readable by Autocad software, or viewers such as Autodesk DWF viewer...).

When downloading the consultation file, it is recommended that the company create an account on the dematerialization platform where it will include the name of the tendering organization, and an email address in order to keep it informed of any changes occurring during a procedure (addition of a document to the DCE, sending a list of answers to questions received...).

The candidate is informed that only the copy of the consultation file held by the contracting authority is authentic.

5. Presentation of applications and offers

The candidates will have to produce the documents below:

5.1 Elements necessary for the selection of applications:

Each candidate shall produce the **application form attached to** this document, to which will be attached the following documents:

- **Declaration on honor justifying that the** candidate does not fall into any of the cases mentioned in articles L. 2141-1 to L. 2141-5 or articles L. 2141-7 to L. 2141-10 of the Public Procurement Code (document attached)
- Where applicable, the document(s) relating to **the powers of the person authorized to commit the company**
- In the case of a grouping, the authorisation **document for the representative** signed by the members of the grouping
- **In case of subcontracting, the subcontracting declaration** (attached to the Single Contract)

The candidate may prove his capacity by any other document considered equivalent by the contracting authority if it is objectively impossible for him to produce one of the requested information relating to his financial capacity.

If, in order to prove his capabilities, the candidate wishes to rely on the professional, technical and financial capabilities of any other participant (particularly a subcontractor), he must produce the documents relating to this participant referred to in this article above. He must also justify that he will have the capabilities of this participant for the execution of the contract by a written commitment from the participant.

Pursuant to Article R. 2143-16 of the Public Procurement Code, as part of their application, candidates are required to attach a translation into French to elements written in another language.

It is brought to the attention of candidates that, in accordance with the provisions of Article R. 2143-13 of the Public Procurement Code, they are not required to provide supporting documents and means of proof that the buyer can obtain directly through:

- An electronic system for the provision of information administered by an official body provided that access to it is free and, where appropriate, that all the information necessary for consultation is included in the application file;
- Of a digital storage space, provided that all the information necessary for consultation is included in the application file and that access to it is free.

Furthermore, in accordance with the provisions of Article R. 2143-14 of the Public Procurement Code, candidates are not required to provide the contracting authority with supporting documents and means of proof that have already been submitted during a previous consultation and which remain valid.

Finally, according to the provisions of Article R. 2143-4 of the Public Procurement Code, the contracting authority accepts that candidates submit their application in the form of a single European market document (DUME) established in accordance with the model laid down by the European Commission regulation establishing the standard form for the European single market document, instead of the sworn declaration and the information mentioned in Article R. 2143-3.

Applicants may constitute or reuse a DUME in its electronic version via one of the following urls: <https://ec.europa.eu/tools/espd/> OR <https://dume.chorus-pro.gouv.fr/>

It is specified that the contracting authority does not allow candidates to limit themselves to indicating in the single European procurement document that they have the required skills and abilities without providing specific information on them.

5.2 Elements necessary for choosing the offer

For the choice of the offer, candidates must produce the following documents:

- **A Single Contract (CCT English version)** (attached to be completed, dated and signed electronically)

Information on the use of electronic signatures:

Bidders are asked not to use an electronic signature blocking the addition of another electronic signature.

The candidate will also specify the nature and amount of the services he intends to subcontract, as well as the list of subcontractors he proposes to submit for approval and acceptance by the contracting authority.

- **A Breakdown of Flat-Rate Prices (DPGF)**
- **A methodological note or technical brief** written in French or English based on the outline presented in the appendix "Response framework imposed" to this Consultation Regulation.

The documents submitted by the contracting authority with the exception of:

- Those listed above as well as their annexes
- The Contract duly completed by the tenderer

Are not to be included in the offer.

Only the documents held by the Contracting Authority are authentic. Including the Contract if any changes – other than those required for its filling - were made by the bidder.

Candidates are reminded that the signing of the Contract constitutes acceptance of all contractual documents.

6. Evaluation of applications, offers and award of the contract

6.1 Selection of applications

The criteria relating to the application and speaker for selection are **technical, financial and professional capabilities**.

AFD reserves the right to analyze offers before applications. In this case, it may limit the examination of application documents to the only candidate to whom it plans to award the contract.

The criteria for the admissibility of applications are:

- Technical and financial guarantees and capabilities
- Professional capabilities

Applications are declared inadmissible if they do not provide sufficient financial, technical and professional guarantees in relation to the purpose of the service.

6.2 Judgment of the offers

The criteria used to evaluate tenders are weighted as follows:

<p><u>Price of the services</u></p> <p>Definition and assessment of the criterion: The maximum score (NM) will be awarded to the candidate who submitted the lowest financial offer. The other candidates will be assigned a score calculated on the basis of the following formula:</p> $N = NM \times (WCO / OAN)$ <p>where N is the candidate's grade, OMD the amount of the lowest bid, OAN the amount of the bid to be noted.</p> <p>(Is considered as the amount of the offer to be noted the addition of the amount of fees and the maximum amount of reimbursable costs, as a reminder this amount is limited to 80,000 euros including VAT/Net of VAT)</p>	25 / 100
<p><u>Quality and relevance of the proposed methodology</u></p> <p>Definition and assessment of the criterion:</p> <ul style="list-style-type: none"> - Understanding of the context and challenges of the service, translation of this understanding within the framework of the delivered offer. 	35 / 100

- Quality and relevance of the methodology presented.	
<u>Quality of the profiles dedicated to the execution of services and organization of the proposed team</u> Definition and assessment of the criterion: - Quality of the profiles dedicated to the execution of services - Organization of the team & distribution of men/days	35 / 100
<u>Environmental & Social Criterion</u> Definition and assessment of the criterion: - Assessment of the implementation of requirements for reducing carbon emissions and energy consumption	5 / 100

The terms of the negotiation are defined *in the article Procurement procedure*.

The contracting authority **will discard the inappropriate tenders** and proceed to select, after an initial ranking made on the basis of the criteria defined above, **2 candidates** who may be admitted to negotiate. After possible negotiations with these candidates (except if there are insufficient candidates), the contracting authority will choose the most economically advantageous tender.

In the context of these negotiations, the successful candidates may be invited as many times as necessary by the contracting authority, under strict conditions of equality, to specify, supplement or modify their offer without substantial changes being made to the specifications.

AFD reserves the right to organize several rounds of negotiations with selected candidates.

AFD also reserves the right to award the contract based on the initial offer, without negotiation.

6.3 Award of the contract

Prior to the signature of the contract by the Contracting Authority, and in accordance with article R2144-7 of the Public Procurement Code, the awardee (or all members of the awarding group, including any sub-contractors) must transmit on the tool for collecting supplier certificates that the Contracting Authority has equipped itself with (Provisis tool) the documents below requested:

- A **valid document attesting to the effective registration** of the structure (K-bis extract or equivalent);
- A **valid certificate** issued by the competent authorities certifying that the candidate is up to date with their **social obligations** (URSSAF, RSI, AGESEA, MDA...);
- The **nominate list of foreign workers** outside the EC or posted, employed by the structure or failing that a sworn statement of non-employment of foreign workers outside the EC (dated less than 6 months);
- A **valid tax certificate** issued by the competent authorities certifying that the applicant is up to date with his/her tax obligations;
- A **valid civil and/ or professional liability insurance certificate**.

In order to satisfy this latter obligation, the applicant established in a State other than France must produce a certificate drawn up by the administrations and bodies of the country of origin. Where such

a certificate is not issued by the country concerned, it may be replaced by an affidavit, or in those States where no such oath exists, by a solemn declaration made by the person concerned before the competent judicial or administrative authority, a notary or a qualified professional organization of the country.

Failure to submit these documents within the set time limit will result in rejection of the successful candidate's offer and elimination.

The next applicant will then be asked to produce the necessary certificates and attestations before the contract is awarded.

7. Conditions for sending and submitting applications and offers

The transmission of documents by electronic means can only be made to the following address: <https://www.marches-publics.gouv.fr/>.

The reference time zone will be (GMT+01:00) Paris, Brussels, Copenhagen, Madrid.

Preparing in advance:

Need for digital certificate - Configuration in advance of the workstation - recommendation to prepare with the Test consultation.

In the case of an electronic response, the electronic signature of certain documents is required.

The tenderer must have previously acquired an electronic certificate. Obtaining an electronic certificate takes several days or even weeks. If the tenderer does not have a valid electronic certificate in the context of a response to a dematerialised contract, it is imperative that he request one in advance.

It is also strongly recommended that the bidder make arrangements so that its electronic response is filed within the allotted time. A workstation configuration test as well as test consultations are made available on the platform.

Accepted file formats:

In the event of a response being sent electronically, the documents provided must be in one of the following formats, otherwise the offer will be inadmissible:

- Microsoft proprietary office format compatible with 2003 version (.doc, .xls and .ppt),
- Universal text format (.rtf),
- PDF Format (.pdf),
- Image formats (.gif, .jpg and .png),

- Format for plans (.dxf and .dwg).

Any document containing a computer virus will be the subject of a security archive and will be deemed never to have been received. The concerned candidate will be informed. Under these conditions, candidates are advised to submit their documents to an anti-virus before sending.

Electronic signature of the response files:

Bidder's documents must be signed electronically, as detailed below.

By application of the decree of March 22, 2019 relating to the electronic signature of public order contracts, the candidate must comply with the conditions related to:

- to the signatory's signature certificate,
- to the signature tool used (software, online service, initiator (applicable), which must produce electronic signatures in accordance with regulatory formats. (see appendix)

General reminders: ZIP folder and scanned signature:

Documents submitted electronically will be re-materialized after the opening of the envelopes. Candidates are informed that the award of the contract may consist to a handwritten signature on the paper contract.

- Each file to be signed must be individually signed, so that each signature can be verified independently of the others,
- A signed zip folder is not accepted as equivalent to the signature of each document that constitutes the zip folder,
- A scanned handwritten signature has no value other than that of a copy and cannot replace the electronic signature.

Backup copy:

Candidates may also send, within the allotted time for the submission of tenders, a backup copy on a physical electronic medium (CD-Rom, DVD-Rom, USB key) or on paper. This copy is sent to the address below, in a sealed envelope and must include the mention: 'backup copy', the identification of the procedure concerned and the contact details of the company:

11. Appendix: Signature Certificate Requirements

Certificate of signature:

The signatory's signature certificate must comply with the eIDAS regulation or equivalent and meet the required level of security. The RGS (general safety reference) has been replaced by the eIDAS regulation since October 1, 2018.

Nevertheless, for candidates who already have an "RGS" certificate, it remains usable until the end of its validity period.

- Case 1: Certificate issued by a "recognized" Certification Authority - No supporting documents to provide

The certificate of signature is issued by a Certification Authority mentioned in the following trusted list:

<https://www.ssi.gouv.fr/administration/vie-de-securite/>

European applicants will also find the complete list of residents on the trusted list maintained by the European Commission:

<https://webgate.ec.europa.eu/tl-browser/#/tl/FR>

In this case, the bidder has no supporting document to provide on the signature certificate used to sign its response.

- Case 2: The electronic signature certificate is not referenced on a trusted list - Different supporting documents to be provided

The dematerialization platform accepts all electronic signature certificates with security conditions equivalent to those of the General Security Framework (RGS) and "eIDAS".

The candidate ensures by himself that the certificate he uses is at least compliant with the security level defined by the General Security Framework (RGS) or "eIDAS", and provides the supporting documents in his electronic response.

The candidate shall also provide all technical elements enabling the contracting authority to ensure that the certificate used is technically valid.

Thus, the signatory must transmit with their electronic response the following elements:

- a) any element allowing the verification of the quality and security level of the signature certificate (proof of the qualification of the Certification Authority, certification policy, address of the website referencing the Certification Authority),
- b) the technical tools for certificate verification (full certificate chain up to Root CA, download address of latest certificate revocation list update).

It is specified that all these elements must be free of access and use for the buyer, and be accompanied by clear instructions for use if applicable.

Signature tool used to sign files:

The regulation allows the bidder to use the signature tool of their choice.

- Case 1: The bidder uses the platform's signature tool - No supporting documents to provide

The platform integrates an electronic signature tool, which produces signature tokens in the XAdES regulatory format.

In this case, the bidder has no documentation to provide on the transmitted electronic signatures and the signature tool used.

**- Case 2: The bidder uses a different signature tool than the one integrated into the platform
- Different supporting documents to be provided**

When the candidate uses a signature tool other than that of the platform, he must comply with the following two obligations:

- a) Produce XAdES, CAdES or PAdES signature formats
- b) Allow verification by transmitting in parallel the elements necessary to proceed with the verification of the validity of the signature and the integrity of the document, free of charge.

ATTENTION: It is brought to the attention of candidates that the use of an electronic signature must not conflict with the article "Conditions for sending and submitting applications and offers", paragraphs "Accepted file formats". As such, it is recommended to use a 'detached' signature when the signature tool allows it, in order to deliver a document in an accepted format.

It is specified that all these elements must be free of access and use for the buyer, and be accompanied by clear instructions for use if applicable.
