ARTICLE 3: CANDIDATE PARTICIPATION CONDITIONS

Candidate presentation conditions

A single entity may not represent more than one candidate for any given tender (Article R. 2142-4 of the French Public Procurement Code). In the context of this tender, however, the contracting authority does not authorise the candidate to present multiple offers when acting at the same time as:

- an individual candidate and member of one or more consortia of economic operators;
- a member of multiple consortia of economic operators.

In the event of an application being made by a consortium of economic operators, each member of the consortium must provide all the documents and information certifying their legal, professional, technical and financial capacity. The consortium's capacities will be assessed on an overall basis.

Grounds and conditions of exclusion

Notably under:

- The French Law no. 2016-1691 of 9 December 2016 on transparency, anti-corruption and modernisation of the economy, the so-called "Sapin 2" law;
- Chapter II of the French Monetary and Financial Code setting out provisions for the freezing of assets and the prohibition of making funds available (notably Article L. 562-4 and Article L. 562-5);
- Relevant requirements emanating from accreditation for managing delegated EU funds (Pillar 7 relating to exclusion from accessing financing);

Candidates or their representative in any of the situations set out in Articles L.2141-1 to L.2141-10 of the French Public Procurement Code, or which are on any official exclusion list, shall be excluded from the procedure, whether their situation is established by means of their own declarations or through the application of vigilance measures by the contracting authority.

However, where the exclusion decision is at the discretion of the contracting authority, it shall invite the candidate(s) liable to exclusion to present their observations in order to establish, via all means and within a reasonable period not exceeding 10 days, that the measures required to rectify the failings laying behind exclusion have been taken and, as applicable, that their participation in the tender will not undermine equality of treatment among the bidders.

Where an operator finds itself to be in a position of exclusion during the procedure, it shall notify the contracting authority without delay, which shall apply exclusion on these grounds.

Minimum prerequisites in terms of economic, technical and professional capacity

The contracting authority does not impose minimum capacity levels on candidates.

Each consortium member must provide all the documents required under these Rules. In order to demonstrate its professional, technical and financial capacity, the candidate may ask for due consideration to be given to the professional, technical and financial capacity of one or more economic operators. In such cases, it must demonstrate the capacities of the other economic operator(s) from which it benefits for contract implementation.

In the case of a temporary consortium, the aforementioned participation conditions will be assessed on an overall basis; the application file must include authorisation of the lead company from its co-contractors, which may be issued *via* form DC1.

Specific requirements for consortia of economic operators

Grounds for the exclusion of consortia

Where the grounds for exclusion from the tender procedure concern one of the consortium members, the contracting authority shall demand its replacement by an entity not subject to the grounds for exclusion, to take place within 10 days of the lead company receiving said demand. Failing this, the consortium shall be excluded from the procedure;

The consortium shall be jointly liable. The lead company is liable for execution of the contract by each of the consortium members with regard to their contractual obligations vis-à-vis Expertise France].

Comparison of bids for selection of the most economically beneficial bid

Bids will be assessed separately in accordance with the following criteria by awarding a score up to the maximum number of points per criterion as set out below:
