II.10.5 Identification and evidence of the granting of pre-existing rights and third-party rights

When delivering the results, the Contractor shall warrant that they are free of rights or claims from creators and third parties, including in relation to pre-existing rights, for any use envisaged by Expertise France. This does not concern the moral rights of natural persons.

To that effect, the Contractor shall establish a list of all pre-existing rights and rights of creators and third parties on the results of this FWC or parts thereof. This list shall be provided no later than the date of delivery of the final results.

In the result, the Contractor shall clearly point out all quotations of existing textual works. The complete reference should include as appropriate: name of the author, title of the work, date

- d) a copy of the agreement or extract from the employment contract granting the relevant rights to the Contractor where parts of the results were created by its personnel;
- e) the text of the disclaimer notice, if any.

Provision of evidence does not release the Contractor from its responsibilities in the case where it is found that it does not hold the necessary rights, regardless of when and by whom this fact was revealed.

The Contractor also warrants that it possesses the relevant rights or powers to execute the transfer, and that it has paid or has verified payment of all due fees including fees due to collecting societies, related to the final results.

II.10.6 Creators

By delivering the results, the Contractor warrants that the creators undertake not to oppose that their names be recalled when the results are presented to the public and confirms that the results can be divulged. The Contractor shall obtain the consent of creators regarding the granting of the relevant rights and be ready to provide documentary evidence upon request.

II.10.7 Persons appearing in photographs or films

If natural, recognisable persons appear in a result or their voice is recorded, the Contractor shall submit a statement of these persons (or of the persons exercising parental authority in case of minors) where they give their permission for the described use of their image or voice on request by Expertise France. This does not apply to persons whose permission is not required in line with the law of the country where photographs were taken, films shot or audio records made.

II.10.8 Copyright of the Contractor over pre-existing rights

When the Contractor retains pre-existing rights on parts of the results, reference shall be inserted to that effect when the result is used as set out in Article I.8.1, with the following disclaimer: © - year – Expertise France. All rights reserved. Certain parts are licensed under conditions to Expertise France.

II.10.9 Visibility of Expertise France, European Union and French State funding - disclaimer

When making use of the results, the Contractor shall declare that they have been produced within a contract with Expertise France, and from case to case financed by Expertise France, the European Union, the French State or any other relevant funder, and that the opinions expressed are those of the Contractor only and do not represent Expertise France's official position. Expertise France may waive this obligation in writing.

ARTICLE II.11 – FORCE MAJEURE

- II.11.1** “Force majeure” means any unforeseeable and exceptional situation or event beyond the parties' control which prevents either of them from fulfilling any of their obligations under the FWC, which was not attributable to error or negligence on their part or on the part of subcontractors and which proves to be inevitable in spite of exercising due diligence. Any default of a service, defect in equipment or material or delays in making them available, unless they stem directly from a relevant case of force majeure, as well as labour disputes, strikes or financial difficulties, cannot be invoked as force majeure.
- II.11.2** A party faced with force majeure shall formally notify the other party without delay, stating the nature, likely duration and foreseeable effects.
- II.11.3** The party faced with force majeure shall not be held in breach of its contractual obligations if it has been prevented from fulfilling them by force majeure. Where the Contractor is unable to fulfil its contractual obligations owing to force majeure, it shall have the right to remuneration only for the tasks actually executed.
- II.11.4** The parties shall take all necessary measures to limit any damage due to force majeure.

ARTICLE II.12 – PENALTIES

Expertise France may impose liquidated damages should the Contractor fail to complete its contractual obligations, also with regard to the required quality level, according to the tender specifications.

Should the Contractor fail to perform its contractual obligations within the time limits set by the FWC or the relevant purchase order or specific contract, then, without prejudice to the Contractor's actual or potential liability or to Expertise France's right to terminate the FWC or the relevant purchase order or specific contract, Expertise France may impose liquidated damages for each and every calendar day of delay according to the following formula:

$V \times d / 500$, where:

V is the price of the relevant purchase;

d is the number of days of delay (expressed in business days)

The Contractor may submit arguments against this decision within thirty days of receipt of the formal notification. In the absence of a reaction on its part or of written withdrawal by Expertise France within thirty days of the receipt of such arguments, the decision imposing the liquidated damages shall become enforceable.

The parties expressly acknowledge and agree that any sums payable under this article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses incurred due to failure to fulfil obligations which may be reasonably anticipated.

ARTICLE II.13 – SUSPENSION OF PERFORMANCE OF THE FWC**II.13.1 Suspension by the Contractor**

The Contractor may suspend the performance of the FWC or purchase order or specific contract or any part thereof if a case of force majeure makes such performance impossible or excessively difficult. The Contractor shall inform Expertise France about the suspension without delay, giving all the necessary reasons and details and the envisaged date for resuming the performance of the FWC, purchase order or specific contract.

Once the circumstances allow resuming performance, the Contractor shall inform Expertise France immediately, unless Expertise France has already terminated the FWC, purchase order or specific contract.

II.13.2 Suspension by Expertise France

Expertise France may suspend the performance of the FWC or purchase order or specific contract or any part thereof:

- a) if the FWC or purchase order or specific contract award procedure or the performance of the FWC prove to have been subject to substantial errors, irregularities or fraud;
- b) in order to verify whether presumed substantial errors, irregularities or fraud have actually occurred.

Suspension shall take effect on the day the Contractor receives formal notification, or at a later date where the notification so provides. Expertise France shall as soon as possible give notice to the Contractor to resume the service suspended or inform the Contractor that it is proceeding with termination of the FWC or purchase order or specific contract. The Contractor shall not be entitled to claim compensation on account of suspension of the FWC or purchase order or specific contract or of part thereof.

Expertise France may terminate the FWC, a purchase order or a specific contract respectively in the following circumstances:

- b) if execution of the tasks under a pending purchase order or a specific contract has not actually commenced within fifteen days of the date foreseen, and the new date proposed, if any, is considered unacceptable by Expertise France, taking into account Article II.8.2;
- c) if the Contractor does not perform the FWC or a purchase order or specific contract as established in the tender specifications or request for service or fails to fulfil another substantial contractual obligation; termination of three or more purchase orders or specific contracts on this basis shall constitute grounds for termination of the FWC;
- d) in the event of force majeure notified in accordance with Article II.11 or if the performance of the FWC or purchase order or specific contract has been suspended by the Contractor as a result of force majeure, notified in accordance with Article II.13, where either resuming performance is impossible or the modifications to the FWC or purchase order or specific contract might call into question the decision awarding the

- h) if Expertise France has evidence that the Contractor or any natural persons with the power to represent it or take decisions on its behalf have committed fraud, corruption, or are involved in a criminal organization, money laundering or any other illegal activity detrimental to the financial interests of Expertise France, the French state or the European Union;

II.14.2 Termination procedure

When Expertise France intends to terminate the FWC or purchase order or specific contract, it shall formally notify the Contractor of its intention specifying the grounds thereof. Expertise France shall invite the Contractor to make any observations and, in the case of point (c) of Article II.14.1, to inform Expertise France of the measures taken to continue the fulfilment of its contractual obligations, within 30 days from receipt of the notification.

If Expertise France does not confirm acceptance of these observations by giving written approval within 30 days of receipt, the termination procedure shall proceed. In any case of termination, Expertise France shall formally notify the Contractor about its decision to terminate the FWC or purchase order or specific contract. In the cases referred to in points (a), (b), (c), (e), (g), (j), (k) and (l) of Article II.14.1, the formal notification shall specify the date on which the termination takes effect. In the cases referred to in points (d), (f), (h), and (i) of Article II.14.1, the termination shall take effect on the day following the date on which notification of termination is received by the Contractor.

II.14.3 Effects of termination

In the event of termination, the Contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the notification of termination, the Contractor shall take all the appropriate measures to minimize costs, prevent damages, and cancel or reduce its commitments. The Contractor shall have thirty days from the date of termination to draw up the documents required by the special conditions or purchase orders or specific contracts for the tasks already executed on the date of termination and produce an invoice if necessary. Expertise France may recover any monies paid under the FWC.

Expertise France may claim compensation for any damage suffered in the event of termination.

On termination, Expertise France may engage any other Contractor to execute or complete the services. Expertise France shall be entitled to claim from the Contractor all extra costs incurred in this regard, without prejudice to any other rights or guarantees it may have under the FWC.

ARTICLE II. 15 – REPORTING AND PAYMENTS**II.15.1 Payment date**

Payments shall be deemed to be effected on the date when they are debited to Expertise France's account.

II.15.2 Currency

The FWC is denominated in Kina (PGK).

Payments shall be made in euros or in the local currency as provided for in Article I.5.

Conversion between the euro and another currency shall be made according to the daily euro exchange rate published in the Official Journal of the European Union or, failing that, at the monthly accounting exchange rate established by the European Commission and published on its website, applicable on the day on which the payment order is issued by Expertise France.

Invoices shall indicate the place of taxation of the Contractor for value added tax (GST) purposes and shall specify separately the amounts not including GST and the amounts including GST.

In the context of cooperation projects financed by public development aid, Expertise France is, as a rule, exempt from all taxes and duties, including GST.

The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the supplies and services required for performance of the FWC are exempt from taxes and duties, including GST exemption.

II.15.5 Pre-financing and performance guarantees

Pre-financing guarantees shall remain in force until the pre-financing is cleared against interim payments or payment of the balance and, in case the latter takes the form of a debit note, three months after the debit note is notified to the Contractor. Expertise France shall release the guarantee within the following month.

Performance guarantees shall cover performance of the service in accordance with the terms set out in the request for services, until its final acceptance by Expertise France. The amount of the performance guarantee shall not exceed the total price of the purchase order or specific

The Contractor shall submit an invoice for payment of the balance within sixty days following the end of the period referred to in Article III.2.2, accompanied by a final progress report or any other documents provided for in Article I.4 or in the tender specifications or in the purchase order or specific contract.

Upon receipt, Expertise France shall pay the amount due as interim or final payment, within the periods specified in Article I.4, provided the invoice and documents have been approved and without prejudice to Article II.15.7. Approval of the invoice and documents shall not imply recognition of the regularity or of the authenticity, completeness and correctness of the declarations and information they contain.

Payment of the balance may take the form of collection.

II.15.7 Suspension of payment terms

Expertise France may suspend the payment periods specified in Article I.4 at any time by notifying the Contractor that its invoice cannot be processed, either because it does not comply with the provisions of the FWC, or because the appropriate documents have not been produced.

Expertise France shall inform the Contractor in writing as soon as possible of any such suspension, giving the reasons for it.

Suspension shall take effect on the date the notification is sent by Expertise France. The remaining payment period shall start to run again from the date on which the requested information or revised documents are received or the necessary further verification, including

on-the-spot checks, is carried out. Where the suspension period exceeds two months, the Contractor may request Expertise France to justify the continued suspension.

Where the payment periods have been suspended following rejection of a document referred to in the first paragraph and the new document produced is also rejected, Expertise France reserves the right to terminate the purchase order or specific contract in accordance with Article II.14.1.

II.15.8 Late payment interest

On expiry of the payment periods specified in Article I.4, and without prejudice to Article II.14.7, the Contractor is entitled to interest on late payment pursuant to the French Decree 2013-269 issued 29 March 2013 on the fight against late payment in public procurement contracts. The rate applied shall be the interest rate of the European Central Bank for its main and most recent refinancing operations, as applicable on the first day of the semester of the calendar year during which late payment interest started to accrue, plus eight percentage points. However, when the calculated interest is lower than or equal to 200 euros, it shall be paid to the Contractor only upon request, submitted within two months of receiving late payment. The amount of the fixed indemnity to cover collection costs is set at forty (40) euros and will be systematically paid in addition to late payment interest. Interest below €40 shall not be mandated.

Suspension in accordance with Article II.15.7 may not be treated as late payment.

Late payment interest covers the period between the day following the due date and, at the very latest, the date of actual payment as defined in Article II.15.1.

ARTICLE II. 16 – REIMBURSEMENTS

II.16.1 Where provided by the special conditions or by the tender specifications, Expertise France shall reimburse the expenses that are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets or, failing that, on production of copies or scanned originals, or on the basis of flat rates.

- d) daily subsistence allowance shall be reimbursed at the flat rates specified in Article I.3;
- e) accommodation shall be reimbursed on receipt of supporting documents proving the necessary overnight stay at the destination, up to the flat rate ceilings specified in Article I.3.

II.16.5 The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided Expertise France has given prior written authorization.

II.16.6. Conversion between the euro and another currency shall be made as specified in Article II.15.2.

ARTICLE II.17 – RECOVERY

II.17.1 If an amount is to be recovered under the terms of the FWC, the Contractor shall repay Expertise France the amount in question according to the terms and by the date specified in the debit note.

II.17.2 If the obligation to pay the amount due is not honored by the date set by Expertise France in the debit note, the amount due shall bear interest at the rate indicated in Article II.15.8. Interest on late payments shall cover the period from the day following the due date for payment up to and including the date when Expertise France receives the full amount owed.

Any partial payment shall first be entered against charges and interest on late payment and then against the principal amount.

- II.17.3** If payment has not been made by the due date, Expertise France may, after informing the Contractor in writing, recover the amounts due by offsetting them against any amounts owed to the Contractor by Expertise France or by calling in the financial guarantee, where provided for in Article I.4 or in the specific contract.

The audit procedure shall be deemed to be initiated on the date of receipt of the relevant letter sent by Expertise France. Audits shall be carried out on a confidential basis.

- II.18.2** The Contractor shall keep all original documents stored on any appropriate medium, including digitized originals when they are authorised by national law and under the conditions laid down therein, for a period of five years which starts running from the date of expiry of the FWC.
- II.18.3** The Contractor shall allow the Expertise France's staff and outside personnel authorised by Expertise France the appropriate right of access to sites and premises where the FWC is performed and to all the information, including information in electronic format, needed in order to conduct such checks and audits. The Contractor shall ensure that the information is readily available at the moment of the check or audit and, if so requested, that information is handed over in an appropriate form.
- II.18.4** On the basis of the findings made during the audit, a provisional report shall be drawn up. It shall be sent to the Contractor, which shall have thirty days following the date of receipt to submit observations. The final report shall be sent to the Contractor within sixty days following the expiry of that deadline.

On the basis of the final audit findings, Expertise France may recover all or part of the payments made and may take any other measures which it considers necessary.

BACKGROUND AND JUSTIFICATION OF THE NEED

1. PRESENTATION OF EXPERTISE FRANCE AND ITS ACTIVITIES IN PNG

Expertise France, an entity of the French Development Agency (*Agence Française de Développement, AFD*) Group, is the French government's international technical cooperation agency. Its role is to design and manage donor-funded international cooperation projects in fields such as governance, security, health, education, and the environment.

The agency currently manages over 380 projects in over 145 countries. The agency has a workforce of about 650 personnel in its headquarters in France and about 1000 personnel throughout the world. In 2022, Expertise France disbursed over 340 million euros of official development assistance (ODA) worldwide. The European Union (EU) and the French Government constitute Expertise France's main donors.

Expertise France is operating in Papua New Guinea (PNG) to implement donor-funded projects supporting PNG's development agenda. In particular, the European Union has awarded the implementation of the national component of its Forestry-Climate Change-Biodiversity (EU-FCCB) Programme to Expertise France (hereafter, the "project") and SONG Project funded by AFD Group.

2. PRESENTATION OF THE EU-FCCB PROGRAMME AND THE NATIONAL COMPONENT IMPLEMENTED BY EXPERTISE FRANCE

The European Union-funded Forestry-Climate Change-Biodiversity (EU-FCCB) Programme for Papua New Guinea aims "to support a development model that reconciles forestry, climate change and biodiversity with sustainable, inclusive and gender-responsive green growth and jobs at national and pilot subnational/community levels". Its three specific objectives (SOs) are:

- SO1: "Effective implementation of evidence-based FCCB policies, governance and institutional frameworks"

-
- SO2: “Improved FCCB awareness, knowledge, capacities and mobilisation”
 - SO3: “Increased inclusive and gender-responsive green growth”

With approved funding in the amount of 54.7 million euros, it is one of the EU’s most ambitious forest-related programmes anywhere in the world.

More information about the EU-FCCB programme is available at the following link:

<https://vimeo.com/880344258/4971f290c1?share=copy>

The EU-FCCB Programme consists of several components, including the national component (33.5 million euros) implemented by Expertise France. This project will entail support for a number of PNG-based public sector institutions operating in the FCCB intervention area, support for PNG-based research, education and awareness institutions as well as support for PNG-based communities engaged in conservation and sustainable livelihoods and green SMEs.

This project started in July 2023 and went through an inception phase (July 2023 to February 2024), to help calibrate the project’s intervention strategy and to undertake the detailed design of the project’s activities, in partnership with the project’s stakeholders.
