Plan n° 24-558

The floor plan illustrates the layout of the 1st floor of the CEREMA building. The central circular section is densely packed with rooms, including a large hall (SALLE DE REUNION #1) and several smaller meeting rooms. Surrounding this central area are numerous bureaux (offices) and laboratoires (laboratories). A large rectangular wing on the right side of the plan contains a central courtyard (COUR) and a series of bureaux and meeting rooms. The plan is color-coded with various shades of blue, green, and orange to distinguish different functional areas. A north arrow is located in the upper right corner. The plan is surrounded by a grid of small 'x' marks, likely representing the building's footprint or surrounding terrain.
