The architectural floor plan, titled "Vue en plan", depicts a restaurant layout. At the top right is a kitchen area outlined in red, containing equipment like a sink, stove, and refrigerator. Below the kitchen is a long counter labeled "Pommes produits anti-allergène". The main dining area features several round tables (Ø 90 cm) and square tables (75 x 63 cm). There are also smaller circular tables near the entrance. The plan includes detailed furniture arrangements, such as chairs around tables and a bar area. Various dimensions and material specifications are noted throughout the drawing, including table sizes, chair counts, and material codes like "Bois laqué H.F.E." and "Alu anodisé". Section lines A-A, B-B, and C-C are clearly marked for reference.
