

The architectural floor plan is divided into a grid system with columns numbered 1 to 24 and rows lettered A to F. The plan includes several key features:

- Rooms and Spaces:**
 - ESCALIERS (Stairs):** Located in the top-left and bottom-right corners.
 - ASC (Elevator):** Located in the top-left corner, adjacent to the stairs.
 - Plancher BA (Concrete Slabs):** Multiple areas labeled 'Plancher BA' are distributed throughout the plan, including a large central area and smaller sections near the stairs and elevator.
 - Voile BA (Concrete Walls):** Vertical walls are labeled 'Voile BA' at various points along the perimeter and internally.
 - Maçonnerie de remplissage (Filling Masonry):** Horizontal and vertical masonry walls are labeled 'Maçonnerie de remplissage'.
- Dimensions and Measurements:**
 - Horizontal dimensions are provided along the top and bottom edges, ranging from 0.20 to 37.35 meters.
 - Vertical dimensions are provided along the left and right edges, ranging from 0.20 to 14.54 meters.
 - Room dimensions are also indicated, such as 2.13 x 5.59 for the top-left room and 4.95 x 4.95 for the bottom-right room.
- Structural and Leveling Details:**
 - Leveling points are marked with circles containing values like 170.51 and 170.52.
 - Red dashed lines indicate specific levels or boundaries, with labels like 'JD' and '0.00m'.
 - Various structural elements are labeled with codes like PT-40x20, PO-30x60, and PT-30x30.
