

PUBLIC MARKET FOR INTELLECTUAL SERVICES

French Development Agency

5 Rue Roland BARTHES
75012 PARIS

Subject: Enhanced Integrated Flood Resilience and Adaptation Investment Program (EIFRAIP) – support to Component 1B and LGU participation partially contributing to Component 3

Deadline for submitting offers

Date: 07/09/2026

Time: 14:00 (Paris time)

Regulation of the consultation/ procedure

The consultation rules and the single contract have been translated into English to facilitate candidates' understanding; however, only the French versions are legally binding and have contractual value. In the event of any discrepancy between the French and English versions, the French versions shall prevail.

1. Subject of the contract

The consultation concerns: ***Enhanced Integrated Flood Resilience and Adaptation Investment Program (EIFRAIP) – support to Component 1B and LGU participation partially contributing to Component 3.***

1.1 Market form

The consultation is not broken down into lots. The services will give rise to a single market.

The services will be subject to a split contract with optional tranches pursuant to Articles R. 2113-4 to R. 2113-6 of the Public Procurement Code. They will be the subject of a firm section and 1 optional section(s) defined below:

- Slice #1, hard slice:
 - Mission 1 Identification of prerequisites for the LGUs' contribution to the three components program and coordination arrangements for the DILG
 - Mission 2 Enhancing EIFRAIP project design and DILG/LGUs participation
- Tranche n°2, optional tranche: MISSION 3. SCOPING STUDY TO LAUNCH A NBS PILOT PROJECT IN PA

Candidates are required to submit a tender for all the tranches making up the contract, i.e. for tranche 1 and tranche 2. A tender which covers only one of the two tranches or is incomplete with regard to one of them, will be considered irregular within the meaning of Article R. 2152-1 of the Public Procurement Code

2. Organization of the consultation

2.1 Procurement procedure

This consultation is launched following the open tendering procedure pursuant to Articles R. 2124-1, R. 2124-2 1° and R. 2161-2 to R. 2161-5 of the Public Procurement Code.

2.2 Justification in case of non-allotment

Devolution in separate lots is likely to restrict competition or may make it technically difficult or financially more expensive to provide services.

2.3 Provisions relating to groupings

The contract may be awarded to a single company or to a group of companies.

If the contract is awarded to a joint consortium, the joint mandatary shall be solidary of each of the consortium members.

Possibility of submitting several tenders for the contract acting both as individual candidates and as members of one or more groupings:

☐ Yes

☒ No

Or as members of several groups:

☐ Yes

☒ No

2.4 Free variants

Free variants are not allowed.

2.5 Imposed variants

There is no provision for PSE (Prestation Supplémentaire Éventuelle).

2.6 Editing the Consultation Folder

The Contracting Authority reserves the right to make detailed changes to the Consultation File at the latest **6 days** before the deadline set for submission of tenders.

Bidders will then have to respond on the basis of the amended file without being able to raise any claims in this regard.

If during the examination of the file by the candidates the above deadline is postponed, the previous provision shall apply according to this new date.

2.7 Validity period of offers

The period of validity of offers is 180 days from the deadline for submission of the offer.

3. Content of the consultation file

The consultation file includes the following documents:

- This consultation regulation.
- The application form
- The Single Contract (CU) and any annexes thereto
- The specific technical clauses book (C.T.P), also known as the Terms of Reference (TdR), and any annexes thereto, where applicable.
- The breakdown of the overall and lump-sum price.

4. Presentation of applications and offers

Candidates will have to produce the documents defined below written in French or English.

4.1 Elements necessary for the selection of applications:

Each candidate must submit the application form attached to this document, along with the following documents:

- Sworn statement proving that the candidate does not fall into any of the cases mentioned in Articles L. 2141-1 to L. 2141-5 or Articles L. 2141-7 to L. 2141-10 of the Public Procurement Code (document attached)
- If applicable, the document(s) relating to the powers of the person authorized to contract the undertaking
- In the case of a group, the authorisation document for the authorised representative signed by the members of the group
- In case of subcontracting, the declaration of subcontracting (attached to the Single Contract)

The candidate may prove his capacity by any other document considered equivalent by the contracting authority if it is objectively impossible for him to produce one of the requested information relating to his financial capacity.

If, in order to prove his abilities, the candidate wishes to give precedence to the professional, technical and financial capabilities of any other stakeholder (particularly subcontractors), he must produce the documents relating to this stakeholder referred to in this article above. He must also justify that he will have the capabilities of this participant for the performance of the contract by a written commitment from the participant.

Under Article R. 2143-16 of the Public Procurement Code, as part of their application, candidates are required to attach a translation into French or English to items written in another language.

It is brought to the attention of candidates that, in accordance with the provisions of Article R. 2143-13 of the Public Procurement Code, they are not required to provide supporting documents and evidence that the buyer can obtain directly through:

- An electronic system for the provision of information administered by an official body, provided that access to it is free of charge and, where appropriate, that all the information necessary for consultation is included in the application file;
- A digital storage space, provided that the application file contains all the information necessary for consultation and that access to it is free of charge.

Furthermore, in accordance with the provisions of Article R. 2143-14 of the Public Procurement Code, candidates are not required to provide the contracting authority with any supporting documents and evidence that have already been submitted during a previous consultation and remain valid.

Finally, according to the provisions of Article R. 2143-4 of the Public Procurement Code, the contracting authority accepts that candidates submit their applications in the form of a single European procurement document (ESPD) established in accordance with the model set by the European Commission Regulation establishing the standard form for the European single market document, instead of the sworn statement and the information mentioned in Article R. 2143-3.

Applicants may constitute or reuse an ESPD in its electronic version via one of the following URLs: <https://ec.europa.eu/tools/espd/> OR <https://dume.chorus-pro.gouv.fr/>

It is specified that the contracting authority does not allow candidates to limit themselves to indicating in the single European procurement document that they have the required aptitude and capacities without providing any specific information on them.

4.2 Elements necessary for choosing the offer

For the selection of the offer, candidates must provide the following documents:

- ✓ **A Single Contract** (CU) in **its French version only**.

Information on the use of electronic signatures:

Bidders are asked not to use an electronic signature that blocks the addition of another electronic signature. The candidate shall also specify the nature and amount of the services which he intends to subcontract, as well as the list of subcontractors that he proposes to submit for approval and acceptance by the contracting authority.

- ✓ **The breakdown of the overall lump sum price in XLSX and PDF format.**

- ✓ **A methodological note or technical brief in English** drafted on the basis of the template presented in the "Imposed Response Framework" annex to this Consultation Regulation.

Documents submitted by the contracting authority with the exception of:

- Those listed above as well as their annexes
- The contract duly completed by the bidder

Are not to be put back in the offer.

Only the documents held by the Contracting Authority are authentic. Including the Contract if any changes – other than those required for its completion – have been made by the bidder.

Candidates are reminded that signing the Single Contract (CU) constitutes acceptance of all contractual documents.

5. Evaluation of applications, bids and award of the contract

5.1 Judging of applications

The AFD reserves the right to analyze offers before applications. In this case, it may limit the examination of the application documents to the only candidate to whom it intends to award the contract.

The criteria for the admissibility of applications are:

- Technical and financial guarantees and capacities
- Professional capacities

Under the following conditions:

The service provider must have at least two permanent employees
The service provider must present at least 3 references of services in a similar safety risk area, namely an [orange/ red] zone according to the MAEE classification.

Applications are declared inadmissible if they do not provide sufficient financial, technical and professional guarantees with regard to the purpose of the service.

5.2 Judgment of bids

The criteria used for judging bids are weighted as follows:

Price of services Definition and assessment of the criterion: The maximum score (NM) will be awarded to the candidate who submitted the lowest financial offer. The other candidates will be assigned a score calculated on the basis of the following formula: $N = NM \times (WCO/NAO)$ where N is the candidate's score, OMD is the amount of the lowest offer, OAN is the amount of the offer to be noted. Subject to not exceeding 300,000 euros including tax, of which 250,000 euros on the final bracket and	20 / 100
---	----------

50,000 euros on the optional tranche	
Quality of the methodology Definition and assessment of the criterion: Quality and relevance of the proposed methodology for implementing benefits. - Understanding of market issues, reflection on the main activities related to achieving market objectives and context - Relevance of the methodology and approach proposed for delivering the services - Calendar - Structuring and distribution of tasks within the team	35 / 100
Profile quality Definition and assessment of the criterion: Quality of profiles dedicated to the performance of services. Skills, experiences of the people mobilized in connection with the expected missions	40/ 100
Environmental & Social Criterion Definition and assessment of the criterion: - Assessment of the implementation of requirements for reducing carbon emissions and energy consumption (such as responsible digital, business travel, energy efficiency) - Assessment of the implementation of gender equality requirements	5/ 100

Correction of tenders:

The flat-rate amount indicated in the deed of commitment shall prevail over the financial annexes.

Elimination note:

During the analysis of offers, those offers that did not obtain the minimum score of **24/40 on the technical criterion Quality of profiles** will be eliminated: they will not be classified and will not be taken into account as part of the financial analysis.

5.3 Contract award

The regulations no longer require economic operators, whether submitting a single tender or in the form of a consortium, to sign their tenders. However, **the signature of the tender of the successful candidate must absolutely take place at the latest upon award of the contract.**

Prior to the signing of the contract by the Contracting Authority, and in accordance with Article R2144-7 of the Public Procurement Code, **the awardee (or all members of the awarding consortium, including any subcontractors)** must submit on the supplier certificate collection tool provided to the Contracting Authority (**Provigis tool**) the documents requested below:

- A valid document certifying the **effective registration of the structure** (extract K-bis or equivalent);
- A **valid certificate** issued by the competent authorities certifying that the candidate is up to date with their

social obligations (URSSAF, RSI, AGESEA, MDA...);

-The **nominative list of non-EC foreign workers** or posted, employed by the structure or failing that a sworn statement of non-employment of non-EC foreign workers (dated less than 6 months);

-A **valid tax certificate** issued by the competent authorities certifying that the candidate is up to date with his/her **tax obligations**;

-A **valid civil and/ or professional liability** insurance certificate.

In order to comply with the latter obligation, the applicant established in a country other than France must produce a certificate drawn up by the administrations and bodies of the country of origin. Where such a certificate is not issued by the country concerned, it may be replaced by an affidavit, or in States where no such oath exists, by a solemn declaration made by the person concerned before the competent judicial or administrative authority, a notary or a qualified professional body of the country.

Failure to submit these documents within the set time limit will result in the rejection of the tenderer's offer and his/her elimination.

The next candidate will then be asked to produce the necessary certificates and attestations before the contract is awarded.

6. Conditions for sending and submitting applications and offers

The electronic transmission of documents can only be made to the following address: <https://www.marches-publics.gouv.fr/>.

The reference time zone will be (GMT+01:00) Paris, Brussels, Copenhagen, Madrid.

Each transmission will be subject to a certain date of receipt and an electronic acknowledgment of receipt.

It is strongly recommended to initiate the bid filing **at least 2 hours before the DLRO**.

In case of difficulties, please contact the PLACE hotline.

Backup:

Candidates may also send, within the time allowed for the submission of tenders, a backup copy on a physical electronic medium (USB key) or on paper. This copy is sent to the address below, in a sealed envelope, and must include the mention: "backup copy," the identification of the procedure concerned, and the company's contact details:

Group Procurement Department (DAG)

5 Rue Roland Barthes

75012 Paris

FRANCE

The documents in the backup must be signed (for those whose signature is mandatory). If the physical medium chosen is electronic, the signature is electronic.

This backup copy may be opened in the cases described in Article 2 II of the Order of 22 March 2019 setting the procedures for making available the consultation documents and the backup copy.

The unopened envelopes containing the backup copy shall be destroyed by the contracting authority at the end of the procedure.

7. Additional information

To obtain all the additional information related to this consultation, applicants must send their application:

- Electronically, exclusively on the dematerialization platform, at the following URL:
<https://www.marches-publics.gouv.fr/>

When uploading the consultation file, it is recommended that the company create an account on the dematerialization platform where it will enter in particular the name of the tendering body, and an email address in order to keep her informed of any changes occurring during a procedure (addition of a document to the DCE, sending a list of answers to questions received...).

Only requests sent at least 8 days before the deadline for receipt of tenders will be answered by the contracting authority.

A response will be sent no later than 6 days before the date set for the receipt of tenders to the candidates who have uploaded the consultation file on the dematerialization platform after having previously identified themselves.

Regarding the information relating to the submission of dematerialised tenders, reference should be made to the article *Conditions for sending and submitting applications and/or tenders* of this document.

ANNEX: DECLARATION OF HONOUR

I, the undersigned.....

Acting in the capacity of

Company name and address:

.....

) hereby declares on his honour:

☐ either be the legal representative of the company identified in the legal documents

☐ hold a clearance authorizing him to engage the company in the context of this consultation (delegation of signature communicated)

b) declares on his honor not to fall into any of the exclusion cases provided for in Articles L. 2141-1 to L. 2141-5 or Articles L. 2141-7 to L. 2141-10 of the Public Procurement Code.

N.B.: When an economic operator is, during the procurement procedure, placed in one of the cases of exclusion mentioned in Articles L. 2141-1 to L. 2141-5, Articles L. 2141-7 to L. 2141-10 or Articles L. 2341-1 to L. 2341-3 of the Public Procurement Code, he shall inform the buyer of this change of situation without delay.

Evidentiary documents available online :

Internet address where supporting documents and evidence are directly accessible free of charge, as well as all the information needed to access them:

- Internet address:

- Information required to access it:

.....

c) hereby declares that I am not, and none of the members of my group, nor of my suppliers, contractors, consultants and subcontractors are included in the lists of financial sanctions adopted by the United Nations, the European Union and/or France, in particular under the heading of combating the financing of terrorism and threats to international peace and security, and I undertake to inform the Agency without delay of any change in the situation

8. Annex: Imposed response framework

The Service Provider's responses must not exceed 50 non-CV pages and annexes

These responses must strictly comply with the following template (indicative number of pages):

A - Summary of your offer (3 pages)

A.1 - Understanding the expectations of the AFD

A.2 - Summary of the steps of your intervention

A.3 - Overall mission schedule

B - Strengths and added value of your offer to carry out this mission (2 pages)

C - Detailed description of your offer (10 pages)

C.1 - Detailed description of the content of the proposed steps (diagnosis, analyses, scenario, action plan, reporting...)

C.2 - Means implemented

C.3 - Bodies and practical arrangements for steering the mission

C.4 - Detailed table of deliverables

C.5 - Detailed planning

D - Recommendations from the contractor for the proper completion of the assignment (2 pages)

E - Presentation of the team that will be involved in this mission (5 pages)

E.1 – Team constitution and division of responsibilities among its members

E.2 – Resumes of speakers (maximum 3 pages per speaker)

F – CSR Considerations (3 pages)

F.1 – Environmental action implemented for the service according to the contract

F.2 – Social action implemented for the service

9. Appendix: Requirements for the certificate of signature

Signature Certificate:

The signatory's signature certificate must comply with the "eIDAS" regulation or equivalent and meet the required level of safety. The RGS (general safety reference system) has been replaced by the "eIDAS" regulation since October 1, 2018.

However, since candidates already have an "RGS" certificate, it remains usable until the end of its validity period.

- Case 1: Certificate issued by a "recognized" certification authority - No supporting document to provide

The signature certificate is issued by a Certification Authority mentioned in the following trusted list:

<https://www.ssi.gouv.fr/administration/visa-de-securite/>

European applicants will also find the complete list of providers on the trusted list maintained by the European Commission:

<https://webgate.ec.europa.eu/tl-browser/#/tl/FR>

In this case, the bidder does not have to provide any supporting document on the signature certificate used to sign their response.

- Case 2: The electronic signature certificate is not referenced on a trusted list - Various supporting documents to be provided

The dematerialization platform accepts all electronic signature certificates with security conditions equivalent to those of the Référentiel général de sécurité (RGS) and "eIDAS".

The candidate shall ensure themselves that the certificate they use is at least compliant with the security level defined by the General Safety Framework (RGS) or "eIDAS", and provide supporting documents in their electronic response.

The candidate shall also provide all the technical elements enabling the contracting authority to ensure that the certificate used is technically valid.

Thus, the signatory must submit with their electronic response the following:

a) any element allowing the verification of the quality and level of security of the signature certificate (proof of the qualification of the Certification Authority, certification policy, address of the referencing website of the Certification Authority),

b) the technical tools for certificate verification (complete certification chain up to the root Certification Authority, download address of the latest update of the certificate revocation list).

It is specified that all these elements must be freely accessible and used by the buyer, and should be

accompanied by clear user manuals if necessary.

Signature tool used to sign files:

The regulations allow the bidder to use the signature tool of their choice.

- Case 1: The bidder uses the platform's signature tool - No supporting document to provide

The platform integrates an electronic signature tool, which produces signature tokens in the XAdES regulatory format.

In this case, the tenderer does not have to provide any proof of the electronic signatures transmitted and the signature tool used.

- Case 2: The bidder uses a different signature tool than the one integrated into the platform - Various supporting documents to be provided

When the candidate uses a signature tool other than that of the platform, they must comply with the following two obligations:

- a) Produce XAdES, CAdES or PAdES signature formats.
- b) Allow verification by transmitting in parallel the elements necessary to proceed with the verification of the validity of the signature and the integrity of the document, free of charge.

It is specified that all these elements must be freely accessible and used by the buyer, and should be accompanied by clear user manuals if necessary.

Appendix: Authorization of the representative by his co-contractors (to be completed for each co-contractor)

I, the undersigned.....
 Acting in the capacity of
 Company name and address:

 Identification number (SIRET or equivalent)

Entitles the representative mentioned by name below to:

- The grouping formed and detailed in this document
- The only current consultation

Purpose of the consultation:

Cluster Overview

The candidate is a group of companies

Identification of the members of the Group

Trade name and company name, address of the establishment, e-mail address, telephone and fax numbers, SIRET number of the members of the group	<i>Services performed by the members of the group</i>

Appointment of the Representative

The members of the grouping shall appoint the following representative:

Trade name and legal name of the unit or establishment that will perform the service:

Mailing and registered office addresses (if different from mailing):

Email address:

Telephone and fax numbers:

SIRET number, failing that, a European or international identification number or one specific to the economic operator's country of origin from a directory included in the list of [IDCs](#):

To assert what is legal
