Assignment or pledge of claims resulting from the public procurement

☐ **1st hypothesis:** This subcontracting declaration constitutes a **special act.**

The holder establishes that no assignment or pledge of claims resulting from the public procurement contract prevents direct payment to the subcontractor under the conditions set out in Article R. 2193-22 or Article R. 2393-40 of the French Code de la commande publique.
Consequently, the proprietor submits with DC4:

☐ The single copy or certificate of enfranchisability of the public procurement contract issued to it,

OR

☐ A certificate or release from the transferee of the assignment or pledge of receivables.

☐ **2nd hypothesis:** This subcontracting declaration constitutes an **amending special act:**

☐ The holder requests the amendment of the single copy or certificate of cessibility, provided for in Article R. 2193-22 or Article R. 2393-40 of the Public Procurement Code, which is attached to this document;

OR

☐ The single copy or certificate of assignability that has been submitted for an assignment or a pledge of receivables and cannot be returned, the holder demonstrates either that the assignment or pledge of claims relating to the public contract does not prevent direct payment of the subcontracted part, or that its amount has been reduced in order for this payment to be possible.

This justification is given by a certificate or a release from the beneficiary of the assignment or the pledge of claims resulting from the contract which is attached to this document.
