

The diagram illustrates a drainage system layout. At the top, a horizontal red line represents a wall or floor surface. Below this line, three components are shown in a vertical sequence, connected by lines. The first component is a small square labeled 'CANIVEAU FENTE'. The second component is a larger square labeled 'SIPHON'. The third component is a larger square labeled 'REGARD DE COLLECTE'. The labels are in blue capital letters. The components are connected by lines, indicating the flow path of the drainage system.
